

STATE OF OREGON

COUNTY OF COOS

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

ROBERT E. CHRISTIANSEN
ROUTE 1 BOX 905
BANDON, OREGON 97411

503-347-2997

to use the waters of TWO SUMP WELLS in the CHINA CREEK BASIN for CRANBERRY USE ON 16.4 ACRES.

This permit is issued approving Application G-12175. The date of priority is JULY 13, 1990. The use is limited to not more than 0.573 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the well.

The sump wells are located as follows:

NW 1/4 NE 1/4, NE 1/4 NW 1/4, SECTION 18, T 29 S, R 14 W, W.M.;
SUMP 1 - 740 FEET SOUTH AND 3080 FEET WEST; SUMP 2 - 600 FEET SOUTH AND
2300 FEET BOTH FROM THE NE CORNER OF SECTION 18.

The amount of water diverted for CRANBERRY USE, together with amounts secured under any other rights existing for the same lands, is limited as follows: For temperature control, 0.15 cubic foot per second per acre. For flood harvesting or pest control, 0.05 cubic foot per second per acre. For irrigation of cranberries, ONE-FORTIETH of one cubic foot per second and 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year. For the irrigation of any other crop, ONE-EIGHTIETH of one cubic foot per second and 2.5 acre-feet per acre for each acre irrigated during the irrigation of each year.

This right shall be limited to any deficiency in the available supply of any prior right existing for the same land.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the proposed place of use under the permit is as follows:

NW 1/4 NE 1/4 5.0 ACRES
NE 1/4 NW 1/4 11.4 ACRES
SECTION 18
TOWNSHIP 29 SOUTH, RANGE 14 WEST, W.M.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.

- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

In the event of a request for a change in point of appropriation, an additional point of appropriation or alteration of the appropriation facility associated with this authorized diversion, the quantity of water allowed herein, together with any other right, shall not exceed the capacity of the facility at the time of perfection of this right.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Actual construction work shall begin on or before August 29, 1996 and shall be completed on or before October 1, 1997. Complete application of water shall be made on or before October 1, 1998.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for beneficial use of water without waste. The water user is advised that new regulations may require use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director of the Water Resources Department has found that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Issued this date, August 29, 1995.

for Water Resources Department
Martha O. Pagel
Director
