

STATE OF OREGON

COUNTY OF MARION

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

HAROLD M. MILLER
P.O. BOX 379
HUBBARD, OREGON 97032

503-651-2835

to use the waters of A WELL in the CASE CREEK BASIN for AGRICULTURAL USE AND IRRIGATION OF 4.6 ACRES.

This permit is issued approving Application G-12914. The date of priority is MAY 11, 1992. The use is limited to not more than 0.094 CUBIC FOOT PER SECOND (CFS) FOR AGRICULTURAL USE, BEING FURTHER LIMITED TO NOT MORE THAN 0.058 CFS FOR IRRIGATION, or its equivalent in case of rotation, measured at the well.

The well is located as follows:

NW 1/4 NW 1/4, SECTION 1, T 5 S, R 2 W, W.M.; 515 FEET SOUTH AND 600 FEET EAST FROM THE NW CORNER OF SECTION 1.

The amount of water used for NURSERY OPERATIONS is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of **containerized nursery plants**, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of **in ground nursery plants** the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for NURSERY OPERATIONS may be made at anytime of the year that the use is beneficial. For the irrigation of **any other crop**, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year. The period of allowed use for irrigation is March 1 through October 31.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the proposed place of use under this permit is as follows:

SE 1/4 SE 1/4 0.1 ACRE
SECTION 35
TOWNSHIP 4 SOUTH, RANGE 2 WEST, W.M.

NW 1/4 NW 1/4 3.8 ACRES
SECTION 1
NE 1/4 NE 1/4 0.7 ACRE
SECTION 2
TOWNSHIP 5 SOUTH, RANGE 2 WEST, W.M.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

Measurement recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or

other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The well shall develop water from a confined aquifer. The groundwater appropriation must be from an aquifer at least 150 feet below land surface. Applicant shall provide additional information on the well construction and the aquifer's characteristics, such as, Depth of well, Depth of seal and casing, Identification of water bearing zones, Static water level, and Thickness of overlying clay zone.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Actual construction of the well shall begin on or before September 29, 1996 and shall be completed on or before October 1, 1997. Complete application of water shall be made on or before October 1, 1998.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

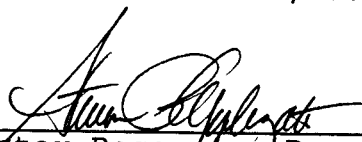

This permit is for beneficial use of water without waste. The water user is advised that new regulations may require use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director of the Water Resources Department has found that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Issued this date, September 29, 1995.

 for Water Resources Department
 Martha O. Pagel
 Director
