

STATE OF OREGON

COUNTY OF WASCO

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

DANIEL CARVER  
HCR 71, BOX 40  
MAUPIN, OREGON 97037

(541) 395-2507

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-13225

SOURCE OF WATER: WELLS 2, 3 AND 4 IN BUCK HOLLOW CREEK BASIN

PURPOSE OR USE: IRRIGATION OF 23.6 ACRES

MAXIMUM FLOW ALLOWED: 0.2 CUBIC FOOT PER SECOND (CFS), BEING 0.06 CFS FROM WELL 2, 0.11 CFS FROM WELL 3, AND 0.03 CFS FROM WELL 4

PERIOD OF USE: MARCH 1 TO OCTOBER 31

DATE OF PRIORITY: DECEMBER 24, 1992

POINT OF DIVERSION LOCATION: SE 1/4 NE 1/4, SECTION 3, T6S, R16E, W.M.; WELL 2 - 1950 FEET SOUTH AND 900 FEET WEST; WELL 3 - 1780 FEET SOUTH AND 880 FEET WEST; WELL 4 - 1600 FEET SOUTH AND 900 FEET WEST; ALL FROM THE NE CORNER OF SECTION 3

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE 1/4 NE 1/4	6.2 ACRES
SE 1/4 NE 1/4	7.5 ACRES
NE 1/4 SE 1/4	4.4 ACRES
SE 1/4 SE 1/4	5.5 ACRES

SECTION 34

TOWNSHIP 5 SOUTH, RANGE 16 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.

Application G-13225 Water Resources Department

PERMIT G-12539

- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

#### STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times. The use of water shall be limited when it interferes with any prior surface or ground water rights.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
