

STATE OF OREGON

COUNTY OF Curry

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

LUCKY LODGE TRAILER PARK
32040 WATSON LANE
GOLD BEACH, OREGON 97444

(541) 247-7618

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-12896

SOURCE OF WATER: A WELL IN ROGUE RIVER BASIN

PURPOSE OR USE: IRRIGATION OF 0.55 ACRE

MAXIMUM RATE: 0.007 CUBIC FOOT PER SECOND

PERIOD OF USE: MARCH 1 THROUGH JUNE 16 AND SEPTEMBER 15 THROUGH OCTOBER 31

DATE OF PRIORITY: MAY 1, 1992

POINT OF DIVERSION LOCATION: NE 1/4 NE 1/4, SECTION 11, T36S, R14W, W.M.; 199 FEET SOUTH AND 152 FEET WEST FROM NE CORNER, SECTION 11

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NW 1/4 NW 1/4 0.55 ACRE
SECTION 12
TOWNSHIP 36 SOUTH, RANGE 14 WEST, W.M.

Measurement recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 4.5 acre-feet for each acre irrigated during the irrigation season of each year.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1998. Complete application of the water to the use shall be made on or before October 1, 1999.

Issued July 31, 1996

for 
Martha C. Page1, Director
Water Resources Department
