

RECEIVED
MAY 1958
STATE ENGINEER
SALEM, OREGON

Permit No. G-1282

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

1. Mr. Frank Hoar
(Name of applicant)
of Pt 2 Box 349 Milton-Freewater, county of Wasmata
(Premises Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Little Walk Wells
(Name of stream)

tributary of Walk Wells River

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 120 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 695 ft. N and 160 ft. W from the E⁴ corner of Section 34
(N. or S.) (E or W) (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the N² pt SE⁴ of NE⁴ of Sec. 34, Twp. 6N, R. 35E, W. M., in the county of Wasmata

5. The _____ to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____
(Smallest legal subdivision)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Not Named

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of One Well having a
(Give number of wells, tunnels, etc)
diameter of 8 inches and an estimated depth of 90 feet. It is estimated that 20
feet of the well will require Steel casing. Depth to water table is estimated 45
(Kind) (Feet)

This well is dug to a depth of 45 feet - has caved in to a depth of 35 feet as a result of recharging during the spring of 1958.

SECTION ON PIPE LINE

(a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Turbine 4"

Give horsepower and type of motor or engine to be used 3 HP - Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
6 N	35 E	34	SE ⁴ of NE ⁴	12 Acres plus 7 Acres, Supplemental on above 12 Acres, Permanent on 7 Acres not covered by perman- ent water irrigat.

(If more space required, attach separate sheet)

Character of soil Y.M.M. Cobble loam
Kind of crops raised Orchard & Row Crop.

PROPOSED WATER SUPPLY

To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 500.00
- 15. Construction work will begin on or before As soon as permit is Acquired
- 16. Construction work will be completed on or before July 1, 1959
- 17. The water will be completely applied to the proposed use on or before July 1, 1959

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. 12 Acres permanent right 1 1/2" per Acre - 120 gallons per minute. 15 Acres as permanent & supplemental water.

Frank A. Foster
(Signature of applicant)

Remarks: I would like to have permission to deepen existing well registration No. GR-2338 dated July 21, 1958. This well has cored in to a depth of 35 feet & it is impossible for me to obtain the 120 gallons per minute allocated under the above registration. This well in the past has supplied sufficient water during August & September prior to core in from recharging but did not & does not supply sufficient water during late May through July.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER
By _____ ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which may be applied to beneficial use and shall not exceed 0.24 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 5, 1959

Actual construction work shall begin on or before April 15, 1960 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1960

Complete application of the water to the proposed use shall be made on or before October 1, 1961

WITNESS my hand this 15th day of April, 1959

Lewis A. Stanley STATE ENGINEER
