

STATE OF OREGON

COUNTY OF LAKE

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

U.S. FREMONT NATIONAL FOREST  
524 NORTH G STREET  
LAKEVIEW, OREGON 97630

(541) 947-6238

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-13985

SOURCE OF WATER: A WELL IN SILVER LAKE BASIN

PURPOSE OR USE: ROAD WATERING AND PRESCRIBED FIRE

MAXIMUM RATE: 0.067 CUBIC FOOT PER SECOND (CFS); BEING NO MORE THAN 500,000 GALLONS PER YEAR FOR ROAD WATERING AND 100,000 GALLONS PER YEAR FOR PRESCRIBED FIRE

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: FEBRUARY 16, 1995

POINT OF DIVERSION LOCATION: NE 1/4 NW 1/4, SECTION 18, T26S, R12E, W.M.; NORTH 53 3/4 DEGREES WEST 1902.88 FEET FROM NW CORNER, SECTION 18

**Measurement, recording and reporting conditions:**

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.
- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

**STANDARD CONDITIONS**

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1998. Complete application of the water to the use shall be made on or before October 1, 1999.

Issued October 28, 1996

Martha O. Pagel, Director  
Water Resources Department
