SE 1/4 SW 1/4	8.0 ACRES	7.0 ACRES
SECTION 1		
NW 1/4 NE 1/4		3.0 ACRES
NE 1/4 NW 1/4	8.6 ACRES	4.0 ACRES
NW 1/4 NW 1/4	3.4 ACRES	
SECTION 12		
TOWNSHIP 30 SOUTH, RANGE 15 WEST, W.M.		

Application G-13522 Water Resources Department

PERMIT G-13027

## Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, a totalizing flow meter or other suitable measuring device(s) as approved by the watermaster must be installed at each diversion point. The totalizing flow meter must be installed and maintained as identified in OAR 690-507-645. The permittee shall keep a complete record of the amount of water used each month. The permittee shall submit a report which includes the recorded water use measurements to the Department at its request. The permittee may be required to report annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

Diversion and use of water under this permit must comply with the Clean Water Act and utilize best management practices as identified in the plan developed as specified in the New River Alternative Dispute Resolution Team Agreement on file with the Department.

**STANDARD CONDITIONS**

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

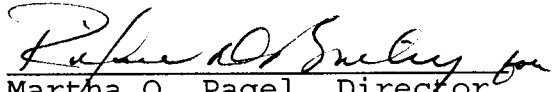

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1999. Complete application of the water to the use shall be made on or before October 1, 2000.

Issued January 31, 1997

  
Martha O. Pagel, Director  
Water Resources Department
