

STATE OF OREGON

COUNTY OF CROOK

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

MARK FLEMING
2211 SE MORNINGSIDE DRIVE
PRINEVILLE, OREGON 97754

PHONE: (541) 447-4040

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-14046

SOURCE OF WATER: WELL 1, WELL 2, AND WELL 3 IN CROOKED RIVER BASIN

PURPOSE OR USE: GROUP DOMESTIC USE EXPANDED FOR 111 HOUSEHOLDS

MAXIMUM RATE: 0.30 CUBIC FOOT PER SECOND (CFS), BEING 0.032 CFS FROM WELL 1, 0.134 CFS FROM WELL 2, AND 0.134 CFS FROM WELL 3

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: APRIL 17, 1995

POINT OF DIVERSION LOCATION: NE 1/4 SW 1/4, SW 1/4 SW 1/4, SW 1/4 SE 1/4, SECTION 21, T15S, R16E, W.M.; WELL 1 - 290 FEET NORTH AND 1123 FEET EAST, WELL 2 - 190 FEET NORTH AND 2759 FEET EAST, WELL 3 - 1936 FEET NORTH AND 2520 FEET EAST, ALL FROM THE SW CORNER OF SECTION 21

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NW 1/4 NE 1/4
SW 1/4 NE 1/4
NE 1/4 NW 1/4
NW 1/4 NW 1/4
SW 1/4 NW 1/4
SE 1/4 NW 1/4
NE 1/4 SW 1/4
NW 1/4 SW 1/4
SW 1/4 SW 1/4
SE 1/4 SW 1/4
NW 1/4 SE 1/4
SW 1/4 SE 1/4

SECTION 21

TOWNSHIP 15 SOUTH, RANGE 16 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as

Application G-14046 Water Resources Department

PERMIT G-13439

approved by the Director. The permittee shall maintain the meter or measuring device in good working order.

- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

Ground water for use under this permit shall be produced from a depth greater than 150 to 200 feet below land surface.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance. Complete application of water to the use shall be made on or before October 1, 2002. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

DATED JULY 29, 1998

Martha O. Pagel, Director
Water Resources Department
