

STATE OF OREGON

COUNTY OF JOSEPHINE

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

WILLIAM L. WENDOVER
1628 DICK GEORGE RD.
CAVE JUNCTION, OREGON 97523

PHONE: (541) 592-2985

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-14774

SOURCE OF WATER: AN UNNAMED RESERVOIR TO BE FILLED FROM SUMP 2, SUMP 3, SUMP 4 AND/OR SUMP 5 IN THE ALTHOUSE CREEK BASIN

PURPOSE OR USE: IRRIGATION AND FROST PROTECTION ON 4.0 ACRES

MAXIMUM VOLUME: 9.0 ACRE-FEET PER YEAR

STORAGE SEASON: WATER MAY BE APPROPRIATED FOR STORAGE DECEMBER 1 THROUGH APRIL 30

PERIOD OF USE: WATER MAY BE APPROPRIATED FROM STORAGE DURING THE PERIOD MARCH 1 THROUGH OCTOBER 31 FOR IRRIGATION AND YEAR ROUND FOR FROST PROTECTION

DATE OF PRIORITY: JUNE 16, 1998

SUMP POINT OF DIVERSION LOCATIONS: SE 1/4 NE 1/4, SECTION 12, T40S, R8W, W.M.; SW 1/4 NW 1/4, SECTION 7, T40S, R7W, W.M.; PREFERRED SUMP 2- 300 FEET NORTH AND 650 FEET WEST, ALTERNATE SUMP 3- 625 FEET NORTH AND 50 FEET WEST, ALTERNATE SUMP 4- 400 FEET NORTH AND 950 FEET EAST, ALTERNATE SUMP 5- 400 FEET NORTH AND 400 FEET EAST ALL FROM E1/4 CORNER SECTION 12

RESERVOIR POINT OF DIVERSION LOCATION: SE 1/4 NE 1/4, SECTION 12, T40S, R8W, W.M.; 200 FEET NORTH AND 100 FEET WEST FROM E1/4 CORNER, SECTION 12

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

The amount of water used for FROST PROTECTION is limited to a diversion of 0.15 cubic foot per second per acre.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

SE 1/4 NE 1/4 4.0 ACRES
SECTION 12
TOWNSHIP 40 SOUTH, RANGE 8 WEST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

In the event of a request for a change in point of appropriation, an additional point of appropriation or alteration of the appropriation facility associated with this authorized diversion, the quantity of water allowed herein, together with any other right, shall not exceed the capacity of the facility at the time of perfection of this right.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

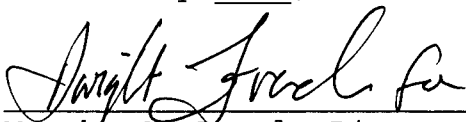

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

SEE NEXT PAGE

Actual construction of the well shall begin by April 16, 2000. Complete application of water to the use shall be made on or before October 1, 2003. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued May 28, 1999

Martha O. Pagel, Director
Water Resources Department
