of State Capital Building, county of Marion

(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willamette River

(Name of stream)

tributary of Columbia

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 500 gallons per minute.

3. The use to which the water is to be applied is Air Conditioning

4. The well or other source is located 83 ft. South and 41 ft. West from the NE corner of Section 27, T. 7 S., R. 3 W., also 37' 1 1/2" N from South line of Lot 6

(N. or S.)

(E. or W.)

(Section or subdivision)

Block 82 Salem, Oregon, and 25' 7 1/2" West from East line of Lot 6.

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NE 1/4 NE 1/4 of Sec. 27, Twp. 7 S., R. 3 W.

W. M., in the county of Marion

5. The _____ to be _____ miles in length, terminating in the _____ of Sec. _____, Twp. _____

(Canal or pipe line)

(Smallest legal subdivision)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Labor and Industries Well #1

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 Well having a diameter of 14 inches and an estimated depth of 220 feet. It is estimated that Unknown feet of the well will require _____ casing. Depth to water table is estimated 15

(Give number of wells, tunnels, etc.)

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE--

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Unknown at this time

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

.....

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
7 S	3 W	27	NE $\frac{1}{4}$ NE $\frac{1}{4}$	Air Conditioning
Legal Description:				
Lots 1 - 10, Blk 82, Salem, Oregon, as shown on the duly recorded Subdivision				
Flat filed in County Recorders office. And in addition a 16 $\frac{1}{2}$ foot vacated Alley				
running Northerly and Southerly thru Block 82 V. 479, page 326				

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

MUNICIPAL SUPPLY--

12. To supply the city of _____

in _____ county, having a present population of _____

and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ 3000.00 _____

15. Construction work will begin on or before July 1, 1959 _____

16. Construction work will be completed on or before September 1, 1959 _____

17. The water will be completely applied to the proposed use on or before October 1, 1960 _____

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. None _____

James Helmer
(Signature of applicant) Director

Remarks: _____

Overflow from system will drain into City storm sewer located on
Center Street

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER

By _____ ASSISTANT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.33 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Labor and Industries Well No. 1.

The use to which this water is to be applied is air conditioning.

If for irrigation, this appropriation shall be limited to - - of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 10, 1959

Actual construction work shall begin on or before June 11, 1960 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1960

Complete application of the water to the proposed use shall be made on or before October 1, 1961

WITNESS my hand this 11th day of June, 1959

Lewis A. Stanley, STATE ENGINEER

Application No. G-1498
Permit No. G-1363
