

STATE OF OREGON

COUNTY OF LAKE

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

GARY McMANUS
HC 60 BOX 3310
LAKEVIEW, OREGON 97630

PHONE: (541) 947-3473

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-14833

SOURCE OF WATER: WELL 1 IN THE BARNES SLOUGH BASIN

PURPOSE OR USE: SUPPLEMENTAL IRRIGATION ON 76.8 ACRES AND SUPPLEMENTAL IRRIGATION TO MAKE UP A DEFICIENCY IN RATE ON 125.4 ACRES

MAXIMUM RATE: 1.807 CUBIC FOOT PER SECOND (CFS), BEING 0.96 CFS FOR SUPPLEMENTAL IRRIGATION ON 76.8 ACRES AND 0.847 CFS FOR SUPPLEMENTAL IRRIGATION TO MAKE UP A DEFICIENCY IN RATE ON 125.4 ACRES

PERIOD OF USE: APRIL 1 TO SEPTEMBER 30

DATE OF PRIORITY: AUGUST 20, 1998

POINT OF DIVERSION LOCATION: NW 1/4 NW 1/4, SECTION 29, T40S, R19E, W.M.; 990 FEET SOUTH & 300 FEET EAST FROM NW CORNER OF SECTION 29

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

ASSIGNED. See Misc. Rec. Vol. 8 Page 496

SE 1/4 SW 1/4	39.2 ACRES

SECTION 29
TOWNSHIP 40 SOUTH, RANGE 19 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

Application G-14833 Water Resources Department PERMIT G-13659

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin by April 23, 2000. Complete application of water to the use shall be made on or before October 1, 2003. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued May 28, 1999
