## STATE OF OREGON

#### COUNTY OF CROOK

### PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

FAYNE F. AND JESSIE M. RITCH P.O. BOX 13 PAULINA, OREGON 97751

PHONE: (541)477-3705

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-14479

SOURCE OF WATER: EIGHT WELLS IN THE PAULINA CREEK BASIN

PURPOSE OR USE: PRIMARY IRRIGATION OF 775.2 ACRES AND SUPPLEMENTAL IRRIGATION OF 738.9 ACRES. NOT MORE THAN 800.0 ACRES SHALL BE IRRIGATED ON ROTATION EACH YEAR

MAXIMUM RATE: A CUMULATIVE TOTAL OF 10.0 CUBIC FEET PER SECOND(CFS), NOT TO EXCEED 2.4 CFS FROM EACH WELL

PERIOD OF USE: APRIL 1 THROUGH SEPTEMBER 30

DATE OF PRIORITY: MARCH 24, 1997

POINT OF DIVERSION LOCATION: SW 1/4 SW 1/4, SECTION 5, SE 1/4 NE 1/4, SECTION 7, SW 1/4 NE 1/4, SECTION 8, SE 1/4 NW 1/4, SECTION 17, NE 1/4 NW 1/4, SECTION 21, T16S, R23W, W.M.; WELL 1 - 650 FEET NORTH & 520 FEET EAST; WELL 2 - 750 FEET NORTH & 1200 FEET EAST BOTH FROM SW CORNER, SECTION 5; WELL 3 - 1820 FEET SOUTH & 1950 FEET WEST; WELL 4 - 2120 FEET SOUTH & 1340 FEET WEST BOTH FROM NE CORNER, SECTION 8; WELL 5 - 2160 FEET SOUTH & 580 FEET WEST; WELL 6 - 2180 FEET SOUTH & 720 FEET WEST BOTH FROM NE CORNER, SECTION 7; WELL 7 - 2080 FEET SOUTH & 1400 FEET EAST FROM NW CORNER, SECTION 17; WELL 8 - 650 FEET SOUTH & 1400 FEET EAST FROM NW CORNER, SECTION 21

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

Application G-14479 Water Resources Department

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

If substantial interference with a senior surface water right occurs due to withdrawal of water from any well(s) listed on this permit, and the interference occurs at times when the water user is also appropriating surface water under more senior rights, then the water user shall reduce the surface water diversion rate by either the same rate as is currently being withdrawn from any well(s) listed on this permit, or by the rate that will satisfy the permitted or customary rate of appropriation of the senior surface water right, whichever is less.

Application G-14479 Water Resources Department

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

## STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Application G-14479 Water Resources Department

Actual construction of the well shall begin by April 2, 2000. Complete application of water to the use shall be made on or before October 1, 2003. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued May 28 , 1999
