

STATE OF OREGON

COUNTY OF BAKER

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

STANLEY GULICK  
ROUTE 1 BOX 251  
HALFWAY, OREGON 97834

(541)742-6042

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-12361

SOURCE OF WATER: A WELL IN THE CLEAR CREEK BASIN

PURPOSE OR USE: SUPPLEMENTAL IRRIGATION 118.0 ACRES

MAXIMUM RATE ALLOWED: 0.668 CUBIC FOOT PER SECOND

PERIOD OF USE: APRIL 1 THROUGH SEPTEMBER 30

DATE OF PRIORITY: DECEMBER 24, 1990

POINT OF DIVERSION LOCATION: SW 1/4 SE 1/4, SECTION 9, T8S, R46E, W.M.;  
82.0 FEET NORTH AND 5.0 FEET WEST FROM THE E1/16 CORNER BETWEEN SECTIONS  
9 AND 16

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE 1/4 SE 1/4 40.0 ACRES

SE 1/4 SE 1/4 39.0 ACRES

SECTION 9

SW 1/4 SW 1/4 39.0 ACRES

SECTION 10

TOWNSHIP 8 SOUTH, RANGE 46 EAST, W.M.

Application G-12361 Water Resources Department

PERMIT G-13680

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The well shall be reconstructed or replaced such that the production well is cased and sealed into a confining layer at a minimum of 90 feet below land surface. If the well is replaced the replacement well shall be in the general vicinity of the existing well.

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

**STANDARD CONDITIONS**

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin by June 3, 2000. Complete application of water to the use shall be made on or before October 1, 2003. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued June 3, 1999

  
Martha O. Pagel, Director  
Water Resources Department
