

STATE OF OREGON

COUNTY OF DESCHUTES

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

EAGLE CREST INC.
WILLIAM D. LYCHE
PO BOX 1215
REDMOND, OREGON 97756

The limits and conditions of the use are listed below.

SPECIFIC LIMITS AND CONDITIONS

APPLICATION FILE NUMBER: G-14857

SOURCE OF WATER: A WELL IN THE DESCHUTES RIVER BASIN

PURPOSE OR USE: QUASI-MUNICIPAL USE

MAXIMUM RATE: 3.34 CUBIC FEET PER SECOND, further limited to a maximum diversion of 252 acre-feet each year and shall result in consumption of no more than 115 acre-feet each year, once sewage contribution is subtracted from the amount diverted, unless the mitigation plan is modified and approved by the Department as described below.

If the reporting, as required below, demonstrates the mitigation plan is not sufficient to mitigate for the amount of water actually consumed, the use will be further restricted to limit the total consumed water to 115 acre-feet, or the Department may approve an additional and equivalent water right to be leased to instream use, to maintain an acre-foot balance between the amount of water consumed to the amount of water provided to instream use. An equivalent water right must, at a minimum, be from a water right with a diversion point at or near the diversion authorized by the lease of certificate 74145.

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: NOVEMBER 2, 1998

POINT OF DIVERSION LOCATION: NE 1/4 NE 1/4, SECTION 16, T15S, R12E, W.M.; 150 FEET SOUTH AND 150 FEET WEST FORM THE NE CORNER, SECTION 16, T15S, R12E, W.M.

Application G-14857 Water Resources Department

PERMIT G-13856

ASSIGNED. See Misc. Rec., Vol. 8 Page 916-917

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE QUARTER ALL
NW QUARTER ALL
SW QUARTER ALL
SECTION 16
TOWNSHIP 15 SOUTH, RANGE 12 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director, *at both the diversion from the well and at a point where sewage, that is actually discharged to the ground, may be measured.* The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

This permit will expire in 2 years from permit issuance unless the 2 year lease of the water right authorized under certificate 74145 to instream purposes is replaced by a permanent transfer of water right certificate 74145, filed as transfer application T 8519, or an equivalent water right as determined by the Department, to instream use.

Within one year of permit issuance, the permittee shall submit a Water Management and Conservation Plan consistent with OAR Chapter 690, Division 86. The Director may approve an extension of this timeline to complete the required Water Management Conservation Plan.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate

Application G-14857 Water Resources Department

PERMIT G-13856

the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences. Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

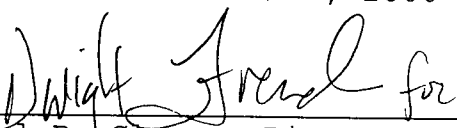

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin by May , 2001. Complete application of the water to the use shall be made on or before October 1, 2005. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued October 17, 2000

Paul R. Cleary, Director
Water Resources Department

NOTE: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.
