STATE ENGINEER  
SALEM, OREGON

Permit No. G-1394

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, **ALFRED AICHER and I, MARY E. AICHER, husband and wife**  
(Name of applicant)  
of **Rt. 2, Box 129, Woodburn**  
(Postoffice Address), county of **Marion**  
state of **Oregon**, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

n/a

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated **BUTTE CREEK**  
(Name of stream)

tributary of **PUDDING RIVER**

2. The amount of water which the applicant intends to apply to beneficial use is ~~no~~ cubic feet per second or **300** gallons per minute.

3. The use to which the water is to be applied is **irrigation of farm land**

4. The well or other source is located **4593** ft. **N** and **1419** ft. **E** from the **S.W.** corner of **Sec. 22, T. 5 S., R. 1 W., W.M.**  
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

If there is more than one well each must be described. Use separate sheet if necessary.

being within the **NE N.W. 1/4** of Sec. **22**, Twp. **5S**, R. **1 W.**

W. M., in the county of **Marion**

5. The **n/a** to be miles  
(Canal or pipe line)  
in length, terminating in the of Sec. Twp.  
(Smallest legal subdivision)

R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is **(not named)**

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

**(not artesian)**

8. The development will consist of **one well** having a  
(Give number of wells, tunnels, etc.)  
diameter of **8** inches and an estimated depth of **140** feet. It is estimated that **140**  
feet of the well will require **steel** casing. Depth to water table is estimated **125**  
(Kind) (Feet)

1394

CANAL SYSTEM OR PIPE LINE— (Portable irrigation pipe used)

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe: ..... ft.; size at intake ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use. .... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type 15 h.p. turbine

Give horsepower and type of motor or engine to be used 15 h.p. Jacuzzi electric pump motor

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development (nearest stream channel about 1 1/2 miles)

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
5S	1W	22	NW 1/4 NW 1/4	30 11.2
			NE 1/4 NW 1/4	18.8

(If more space required, attach separate sheet.)

Character of soil WILLAMETTE LOAN

Kind of crops raised Berries, cold crops (cauliflower, broccoli, beans, etc.)

MUNICIPAL SUPPLY— Not applicable

13. To supply the city of \_\_\_\_\_  
in \_\_\_\_\_ county, having a present population of \_\_\_\_\_  
and an estimated population of \_\_\_\_\_ in 19\_\_\_\_\_

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 2,000.00
- 15. Construction work will begin on or before July 3, 1951
- 16. Construction work will be completed on or before July 18, 1951
- 17. The water will be completely applied to the proposed use on or before July 20, 1951
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. (not applicable)

x Alfred Dickson  
 x Wm. E. Dickson  
 (Signature of applicant)

Remarks: This application is filed in order to register a well in use prior to the adoption of the Oregon Ground Water Act of 1955. It was drilled by Orville Wymore, Brooks, Oregon. It is an 8 inch drilled well, 140 feet deep, started July 3, 1951 and finished July 18, 1951. It has been used continuously since that time. Since logs were not required at that time, none was kept and this is all the available information. Applicant reserves all rights vested in him and in prior owners of the subject real property prior to passage of the said Act, and filing of this application is not to be construed as a waiver of any such rights.

STATE OF OREGON, )  
 ) ss.  
 County of Marion. )

This is to certify that I have examined the foregoing application together with the accompanying maps and data, and return the same for signature

In order to retain its priority, this application must be returned to the State Engineer's Office on or before September 15, 1959

WITNESS my hand this 15th day of July, 1959

LEWIS A. STANLEY

By *James W. Carver, Jr.*  
 James W. Carver, Jr.

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.38 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 16, 1959

Actual construction work shall begin on or before August 20, 1960 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1960

Complete application of the water to the proposed use shall be made on or before October 1, 1961

WITNESS my hand this 20th day of August

1959
