Permit No. G-1491

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Elton L. and Mildred Hughes (Name of applicant)
of Box 2, Box 147, Albany (Postoffice Address), county of Linn

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Sentian River (Name of stream)

tributary of Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 200 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located N 28° W. 11.8 chains ft. and _____ ft. from the SE corner of NE 1/4 of S. 4, T. 10 S., R. 3 W. (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4 of NE 1/4 of Sec. 4, Twp. 10 S, R. 3 W, W. M., in the county of Linn

5. The main pipe line (Canal or pipe line) to be 480 feet _____ miles in length, terminating in the SE 1/4 of NE 1/4 (Smallest legal subdivision) of Sec. 4, Twp. 10 S, R. 3 W, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Well No. 5

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one pump well (Give number of wells, tunnels, etc.) having a diameter of 10 inches and an estimated depth of 22 feet. It is estimated that 22 feet of the well will require steel (Kind) casing. Depth to water table is estimated 12 (Feet)

To supply the city of _____

in _____ county, having a present population of _____

and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 100.00
- 15. Construction work will begin on or before October 14, 1959
- 16. Construction work will be completed on or before October 16, 1959
- 17. The water will be completely applied to the proposed use on or before October 1, 1962
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. _____

Elton J and Mildred Higbee
(Signature of applicant)
 by *Elton J Higbee*

Remarks: _____

~~This new well has been constructed 3 feet NW of Well No. 1 - Registration No. GR-373~~
 and certificate No. 359. This new well is necessary as well No. 1 has a 4 inch casing and the water level dropped below the perforations in mid July of 1958 and early July of 1959. As a result, crops suffered because of a shortage of water. In filing this application for a new well it is understood that my vested right to water in Well No. 1 is not waived.

STATE OF OREGON, }
 County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER

By _____

ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.24 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from well No. 5

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre-feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is November 19, 1959

Actual construction work shall begin on or before January 20, 1961 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1961

Complete application of the water to the proposed use shall be made on or before October 1, 1962

WITNESS my hand this 20th day of January, 1960

Lewis A. Stanley
STATE ENGINEER
