

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, City of Oakridge, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

January 22, 1934 - Oakridge, Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Salmon Creek tributary of Middle Fork, Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is 7.75 cubic feet per second or 3,500 gallons per minute.

3. The use to which the water is to be applied is municipal

4. The well other source is located 548-04' W a distance of 1926', 527-02' W a distance of 1050' and S. 42-01'04" W, a distance of 1,477.05 feet from the 1/4 corner common to Sections 15 and 16

being within the S. E. 1/4 of Sec. 16, Twp. 21S., R. 3E., W. M., in the county of Lane

5. The pipe line to be 400 feet in length, terminating in the N. E. 1/4 of the S. E. 1/4 of Sec. 16, Twp. 21S., R. 3E., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 3 wells having a diameter of 8 to 12 inches and an estimated depth of 200 feet. It is estimated that 200 feet of the well will require steel casing. Depth to water table is estimated 25

By Walter N. Perry, Assistant

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 5.4 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from 3 wells, being 1.8 c.f.s. from each well

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to -- of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is November 30, 1959

Actual construction work shall begin on or before March 1, 1961 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1961

Complete application of the water to the proposed use shall be made on or before October 1, 1962

WITNESS my hand this 1st day of March, 1960

Lewis A. Stanley STATE ENGINEER

Application No. G-1630

Permit No. G-1512
