Permit No. G.....

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Raymond E. Fisher
(Name of applicant)
of New Pine Creek, county of Lake
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Drews Creek
(Name of stream)

tributary of Goose Lake

2. The amount of water which the applicant intends to apply to beneficial use is 1.5 cubic feet per second or _____ gallons per minute.

3. The use to which the water is to be applied is irrigation

S. 81°20' E. 1,236.70 ft.

4. The well or other source is located _____ ft. and _____ ft. from the _____
(N. or S.) (E. or W.)
corner of Section 22, T. 10 S., R. 19 E., W. M.
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

If there is more than one well, each must be described. Use separate sheet if necessary.

being within the SW 1/4 of Sec. 22, Twp. 10 S., R. 19 E.,
W. M., in the county of Lake

5. The canal to be 1/2 miles
(Canal or pipe line)
in length, terminating in the SW 1/4 of Sec. 22, Twp. 10 S.
(Smallest legal subdivision)

R. 19 E., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Fisher Lease Oil Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

Spring to be used from 12" to 8" with two Valve attached
(oil flow to be from un-developed gas oil drilled well)

8. The development will consist of one well having a
(Give number of wells, tunnels, etc.)
diameter of _____ inches and an estimated depth of 300 feet. It is estimated that _____ feet of the well will require _____ casing. Depth to water table is estimated _____
(Kind) (Feet)

1545

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 6 feet; width on bottom 4 feet; depth of water 1 1/2 feet; grade 1 feet fall per one thousand feet.

(b) At 1/2 miles from headgate: width on top (at water line) 4 feet; width on bottom 2 feet; depth of water 1 feet; grade 1 feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type no pump

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

200' from drainage slough

approx. 1/2 mile from Drews Creek Slough

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
10 N.	19 E.	22	Lot 9 (NW 1/4)	8.4
			Lot 10	1.0
			Lot 11	2.0
			Lot 12	2.3
			Lot 13	2.2
			Lot 14	1.1
			Lot 15	1.1
			Lot 16	2.0

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised pasture

MUNICIPAL SUPPLY—

1545

12. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 1,500.00
- 15. Construction work will begin on or before ^{started} May 29 - 54
- 16. Construction work will be completed on or before Oct. 1 - 55
- 17. The water will be completely applied to the proposed use on or before March - 56

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. *Water runs into surface water slough, from drainage of upper lands.*

Raymond E. Fisher
(Signature of applicant)

Remarks: _____

_____ This artesian flow of water is from a proposed oil well drilled
_____ on my leased property by Tri State Gas & Petroleum Co. at no cost
_____ to me for the well. The gas & oil are undeveloped but the well
_____ runs a constant flow of artesian water with a heavy gas content.
_____ It is my intent to utilize the water for irrigation purposes.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER

By _____ ASSISTANT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.16 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Fisher lease oil well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 19, 1952

Actual construction work shall begin on or before May 13, 1961 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1961

Complete application of the water to the proposed use shall be made on or before October 1, 1962

WITNESS my hand this 13th day of May, 1960

Lawrie A. Stanley
