

STATE ENGINEER
SALEM, OREGON

Permit No. G-1569

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, G. A. McDonald (Name of applicant)
of Route 2, Box 144-C, Corvallis, county of Benton
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

not incorporated

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Muddy Creek (Name of stream)

tributary of Mary's River

2. The amount of water which the applicant intends to apply to beneficial use is .4625 cubic feet per second or _____ gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located _____ ft. _____ and _____ ft. _____ from the corner of _____ located N 77° 53' W, 2116.3' from the SE corner of the Solomon K. _____ (Section or subdivision)

Brown D.L.C. No. 54, said well
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NW 1/4 SE 1/4 of Sec. 20, Twp. 12S, R. 5W W. M., in the county of Benton

5. The pipeline to be portable _____ to be _____ miles in length, terminating in the SW NE, SE NW, NE SW, & NW SE of Sec. 20, Twp. 12S R. 5W, W. M., the proposed location being shown throughout on the accompanying map.
(Canal or pipe line)
(Smallest legal subdivision)

6. The name of the well or other works is South well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 8 inches and an estimated depth of 100 feet. It is estimated that 92 feet of the well will require steel casing. Depth to water table is estimated 19.6 on August, 1959.
(Give number of wells, tunnels, etc.)
(Kind)
(Feet)

MUNICIPAL SUPPLY--

12. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 11500.00
- 15. Construction work will begin on or before August 6, 1959
- 16. Construction work will be completed on or before Spring, 1960
- 17. The water will be completely applied to the proposed use on or before Summer, 1961
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. See remarks

x B A McDonald
(Signature of applicant)

Remarks: North well filed under Permit G 309 in August, 1956, is located North 19° 15' E, 892' from new well. 7 1/2 acres located South of the older well will now be irrigated by the new well as per description on map.

The well covered by Permit G 309 has insufficient capacity to irrigate all of the land designated in that application.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER

By _____

ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.16 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from south well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 17, 1960

Actual construction work shall begin on or before May 13, 1961 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1961

Complete application of the water to the proposed use shall be made on or before October 1, 1962

WITNESS my hand this 13th day of May, 1960
