Permit No. G-1575

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Charles H. FERRER and Ruby E. FERRER of Star Route - REDMOND, county of Deschutes state of OREGON, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Squaw Creek (Name of stream)

tributary of Deschutes River

2. The amount of water which the applicant intends to apply to beneficial use is 45 cubic feet per second or 45 gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located 612 ft. East and 167 ft. North from the SW cor. of NW 1/4 NE 1/4 Sec. 10 - Tp. 15 S R. 10 E W. 1 (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NW NE of Sec. 10, Twp. 15 S, R. 10 E W. M., in the county of Deschutes

5. The pipe line to be 1/2 miles in length, terminating in the NW 1/4 NE 1/4 of Sec. 10, Twp. 15 S, R. 10 E, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is FERRER WELL

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of One having a diameter of 8 inches and an estimated depth of 17 feet. It is estimated that 17 feet of the well will require Steel casing. Depth to water table is estimated 7 feet.

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Berkley 1- $\frac{1}{2}$ pump 1 hp

Give horsepower and type of motor or engine to be used Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

60 Ft. South of Squaw Creek

5 Ft. lift in elevator

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
15S	10E	10	NW NE	35 7 $\frac{1}{2}$

(If more space required, attach separate sheet)

Character of soil Volcanic ash

Kind of crops raised Pasture

MUNICIPAL SUPPLY--

B. To supply the city of

in county, having a present population of

and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$.....

15. Construction work will begin on or before Well completed.....

16. Construction work will be completed on or before Completed.....

17. The water will be completely applied to the proposed use on or before Oct. 1, 1961.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. None.....

J. H. Farner & Ruby E. Farner
(Signature of applicant)

Remarks:

Bottom of well is 13 ft. below water surface in old side channel about 150' west of well. Water in channel 2' deep standing water.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19.....

WITNESS my hand this day of, 19

STATE ENGINEER

By ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.09 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Farrer well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 14, 1960

Actual construction work shall begin on or before June 6, 1961 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1961

Complete application of the water to the proposed use shall be made on or before October 1, 1962

WITNESS my hand this 6th day of June, 1960

Lewis A. Shaw STATE ENGINEER

Application No. G-1718
Permit No. G-1575
