Permit No. G-1610

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Conrad Gunderson
(Name of applicant)
of Route 2 Silverton, county of Marion
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

none

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Little Pudding River
(Name of stream)

tributary of Pudding River

2. The amount of water which the applicant intends to apply to beneficial use is 0.35 C.F. cubic feet per second or _____ gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located _____ ft. _____ and _____ ft. _____ from the
(N or S) (E or W)
corner of South 68°30' West 1715 feet from the east 1/4
(Section or subdivision)
Corner of Sec. 24
(If preferable, give distance and bearing to section corner)

(If there is more than one well each must be described. Use separate sheet if necessary.)

being within the NW 1/4 of SE 1/4 of Sec. 24 Twp. 6S R. 2W
W. M., in the county of Marion

5. The none _____ to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____ Twp. _____
(Smallest legal subdivision)

R. _____ W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Conrad Gunderson Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

N/A

8. The development will consist of 1 vertical well having a
(Give number of wells, tunnels, etc.)
diameter of 8 inches and an estimated depth of 142 feet. It is estimated that 142
feet of the well will require 8 inch steel casing. Depth to water table is estimated 50 feet
(Kind) (Feet)
from ground elevation

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line)
 feet; width on bottom feet; depth of water feet;
 grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft.
from intake in.; size at place of use in.; difference in elevation between
intake and place of use, ft. Is grade uniform? Estimated capacity,
..... sec. ft.

10. If pumps are to be used, give size and type 200 g.p.m turbine

Give horsepower and type of motor or engine to be used 15 hp electric motor

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

7878

12. Location of area to be irrigated, or place of use

[illegible]

(If more space required, attach separate sheet)

Character of soil *Silt Loam*

Kind of crops raised Cane Berries

MUNICIPAL SUPPLY—

1610

13. To supply the city of Monroe
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____.

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ 20.00⁰⁰
15. Construction work will begin on or before July 15, 1960
16. Construction work will be completed on or before July 30, 1960
17. The water will be completely applied to the proposed use on or before July 30, 1960
18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. None

Conrad Henderson
(Signature of applicant)

Remarks: This well was drilled in 1953 and has not been used for irrigation before the date of this application. Well data known is given on water well report.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____.

WITNESS my hand this _____ day of _____, 19_____.

STATE ENGINEER

By _____ ASSISTANT

County of Marion.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.55 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Conrad Gunderson well.

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed ... acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 8, 1960

Actual construction work shall begin on or before July 1, 1961 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1961

Complete application of the water to the proposed use shall be made on or before October 1, 1961

WITNESS my hand this 12th day of July, 1960

LEWIS J. JENSEN

STATE ENGINEER
