

Permit No. G-1634

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Willie W. O'Leary and Lucille E. O'Leary (Name of applicant)

of Box 47, Gasco (Postoffice Address), county of Sherman

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated ... (Name of stream)

2. The amount of water which the applicant intends to apply to beneficial use is ... cubic feet per second or ... gallons per minute.

3. The use to which the water is to be applied is ...

4. The well or other source is located ... ft. ... and ... ft. ... from the ... corner of ... (Section or subdivision)

(If preferable, give distance and bearing to section corner)

If there is more than one well, each must be described. Use separate sheet if necessary.

being within the ... of Sec. ... Twp. ... R. ... W. M., in the county of ...

5. The ... to be ... miles in length, terminating in the ... of Sec. ... Twp. ...

R. ... W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is ...

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of ... having a diameter of ... inches and an estimated depth of ... feet. It is estimated that ... feet of the well will require ... steel casing. Depth to water table is estimated ...

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ... feet; width on bottom ... feet; depth of water ... feet; grade ... feet fall per one thousand feet.

(b) At ... miles from headgate: width on top (at water line) ... feet; width on bottom ... feet; depth of water ... feet; grade ... feet fall per one thousand feet.

(c) Length of pipe, 1000 ft.; size at intake, 4 in.; in size at ... ft. from intake 3 in.; size at place of use 3 in.; difference in elevation between intake and place of use, 30 ft. Is grade uniform? Yes. Estimated capacity, 0.4 sec. ft.

10. If pumps are to be used, give size and type ...

Give horsepower and type of motor or engine to be used ...

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use ...

Table with 5 columns: Township N or S, Range E or W of Willamette Meridian, Section, Forty-acre Tract, Number Acres To Be Irrigated.

(If more space required, attach separate sheet)

Character of soil ...

Kind of crops raised ...

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 1000.00.....
- 15. Construction work will begin on or before July 1, 1961.....
- 16. Construction work will be completed on or before July 1, 1962.....
- 17. The water will be completely applied to the proposed use on or before July 1, 1961.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. This same well was applied for, to irrigate 14.15 acres June 10, 1959, Application No. U-834, Permit No. U-752.

Shelby D. Meera
Leslie C. Meera
(Signature of applicant)

Remarks:

This well has been constructed and has been supplying water to irrigate adjoining land. See Permit No. U-752. It also can be used to irrigate another 14.15 acres of land. This additional land is owned by the same applicants, since June 1959. It also is the same as the U-752.

Although, this well is not artesian, the water table rises to within 14 inches of the top, when not pumping, and the draw down is to 10 feet below the surface when pump is operating.

STATE ENGINEER

By ASSISTANT

County of Marion,

} ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.13 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from O'Meara well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 180" of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 5, 1960

Actual construction work shall begin on or before September 20, 1960 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1960

Complete application of the water to the proposed use shall be made on or before October 1, 1960

WITNESS my hand this 20th day of September, 1960
