

RECORDED
 JUN 2 1930

Permit No. G-1677

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, The First National Bank of Oregon, Portland, Trustee
(Name of applicant)

of Portland, county of Multnomah
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willow Creek
(Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 250 gallons per minute.

3. The use to which the water is to be applied is Domestic and Irrigation

4. The well or other source is located 3630 ft. North and 4818 ft. East from the Southwest corner of Section 8
(N. or S.) (E. or W.) (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the Southwest 1/4 of Southwest of Sec. 8, Twp. 2 South, R. 26 East

W. M. in the county of Morrow

5. The pipeline to be 1/2 miles in length, terminating in the Southeast 1/4 - Southeast 1/4 of Sec. 7, Twp. 2 South, R. 26 W. M., the proposed location being shown throughout on the accompanying map.
(Canal or pipe line) (Smallest legal subdivision)

6. The name of the well or other works is Michos Well #1

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

Rubber seal control head with gate valve attached.

8. The development will consist of one well having a diameter of 0 inches and an estimated depth of 202 feet. It is estimated that feet of the well will require _____ casing. Depth to water table is estimated _____
(Give number of wells, tunnels, etc.) (Kind) (Feet)

1677

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type for domestic use: 1 1/4" suction for irrigation: 2" suction

Give horsepower and type of motor or engine to be used for domestic use: 3/4 h.p. electric. For irrigation: 5 h.p. electric.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

500 feet from Willow Creek.

50 feet above Willow Creek bed.

12. Location of area to be irrigated, or place of use

Township N or S	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
South	26 East	8	Southwest 1/4-SW 1/4	11
South	26 East	7	Southeast 1/4-SE 1/4	15
South	26 East	17	Northwest 1/4-NW 1/4	1
				37

(If more space required, attach separate sheet)

Character of soil Sandy Loam

Kind of crops raised Grass and Alfalfa

21. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ _____ done _____

15. Construction work will begin on or before _____ done _____

16. Construction work will be completed on or before all construction work completed. _____

17. The water will be completely applied to the proposed use on or before prior to October 1, 1962

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. See Remarks.

The First National Bank of Oregon, Portland, Trustee

(Signature of applicant)

Remarks: All the land to be irrigated under this application is now
being irrigated under Certificate right from Willow Creek.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ completion _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before November 14, _____, 19 60.

WITNESS my hand this 12th day of September, 19 60.

LEWIS A. STANLEY

STATE ENGINEER

By

Walter N. Perry

ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.34 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Michos well

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/800 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; the right allowed hereunder for the appropriation of water for lands having a valid prior right shall be limited to the amount necessary to make up any deficiency in water available to said lands under said prior right and the amount allowed herein, together with the amount secured under any other right existing for said lands, shall be limited by the duty of water as fixed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 22, 1960

Actual construction work shall begin on or before October 20, 1961 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1962

Complete application of the water to the proposed use shall be made on or before October 1, 1963

WITNESS my hand this 20th day of October, 1960
