STATE OF OREGON,
County of Marion

This is to certify that I have examined the foregoing application, together with the accompanying plans and data and return the same for

In order to receive its priority, this application must be returned to the State Engineer, with correct return, on or before 19

WITNESS my hand this day of 19

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.34 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

The use to which this water is to be applied is domestic and fire protection.

If for irrigation, this appropriation shall be limited to - - of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year.

and shall be subject to such reasonable rotation of time as may be required by the senior right holder.

The well shall be cased as necessary in accordance with the provisions of the laws of the State and the works shall include proper capping and control valves to prevent leakage of water.

The works constructed shall include an accurate leveling line adequate to determine water level elevation in the well at all times.

The priority date of this permit is March 12, 1956

Actual construction work shall be completed by March 20, 1956

This permit is granted in accordance with the provisions of the laws of the State.

The permittee shall install and maintain a water meter at the point of diversion and shall keep a complete record of the amount of water used at all times.
