Permit Amendment T-11382 Conditions

The combined quantity of water diverted at the new additional point of appropriation, Well No. 5, together with that diverted at the old point of appropriation, Well No. 2, shall not exceed the quantity of water lawfully available at the original point of appropriation, Well No. 2.

Well No. 5 shall be constructed so as to not allow ground water production from no shallower than 300 feet below land surface.

Water shall be acquired from the same aquifer as the original point of appropriation.

Water Management and Conservation Plan Conditions

Black Butte Ranch Water Management and Conservation Plan shall remain in effect until December 1, 2021, unless approval is rescinded pursuant to OAR 690-086-0920.

Black Butte Ranch shall submit an updated plan meeting the requirements of OAR Chapter 690, Division 086 within 10 years (of the plan approval date) and no later than December 1, 2020.

PERMIT G-17023

Black Butte Ranch shall submit a progress report containing the information required under OAR 690-086-0120(4) by December 1, 2016.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

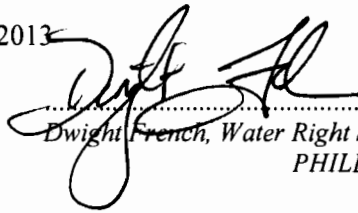

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 25, 1975.....

Actual construction work shall begin on or before October 1, 2015..... and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1 2015.....

Complete application of the water to the proposed use shall be made on or before October 1 2015.....

WITNESS my hand this...^{17th}.....day of July, 2013
