	By

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to shall not exceed	
source of appropriation, or its equivalent in case of rotation with other water users, from	
The use to which this water is to be applied is irrigation	
If for irrigation, this appropriation shall be limited to	
or its equivalent for each acre irrigated and shall be further limited to a diversion of not	to exceed 2½
acre feet per acre for each acre irrigated during the irrigation seasn of each year;an	d the right
allowed hereunder for the appropriation of water for lands having a v	alid prior
right shall be 'imited to the amount necessary to make up any deficie	ncy in water
available to said lands under said prior right and the amount allowed	herein,
together with the amount secured under any other right existing for a	aid lands,
shall be limited by the duty of water as fixed herein,	
and shall be subject to such reasonable rotation system as may be ordered by the proper	state officer.
The well shall be cased as necessary in accordance with good practice and if the works shall include proper capping and control valve to prevent the waste of groun.  The works constructed shall include an air line and pressure gauge or an access pline, adequate to determine water level elevation in the well at all times.  The permittee shall install and maintain a weir, meter, or other suitable measurin keep a complete record of the amount of ground water withdrawn.	d water. port for measuring
The priority date of this permit is July 12, 1960	
Actual construction work shall begin on or before January 18, 1962	and shall
thereafter be prosecuted with reasonable diligence and be completed on or before Oc	tober 1, 19.62
Complete application of the water to the proposed use shall be made on or before (	October 1, 19 63
