Permit No. G-1733

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, YORK FERTILIZER COMPANY, INC.
of Box 107, county of Multnomah,
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

July 19, 1955 Milton-Freewater, Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Littlewood Falls tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 500 cubic feet per second or 250 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 100 ft. and 100 ft. from the corner of (N. or S.) (E. or W.) (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well each must be described. Use separate sheet if necessary)

being within the of Sec. Twp. R. W. M., in the county of

5. The (Canal or pipe line) to be miles in length, terminating in the of Sec. Twp. R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of having a diameter of inches and an estimated depth of feet. It is estimated that feet of the well will require casing. Depth to water table is estimated (Kind) (Feet)

CANAL SYSTEM OR PIPE LINE--

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 280 ft.; size at intake, 2 in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, 55 ft. Is grade uniform? No. Estimated capacity, .056 sec. ft.

10. If pumps are to be used, give size and type
Type of discharge

Give horsepower and type of motor or engine to be used
Type of motor

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Table with 5 columns: Township N. or S., Range E or W of Willamette Meridian, Section, Forty-acre Tract, Number Acres To Be Irrigated. The table is mostly empty with some faint markings.

(If more space required, attach separate sheet)

Character of soil
Kind of crops raised

MUNICIPAL SUPPLY--

1733

13. To supply the city of Net Municipal
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 2500.00
- 15. Construction work will begin on or before October 15, 1960
- 16. Construction work will be completed on or before November 1, 1960
- 17. The water will be completely applied to the proposed use on or before October 1, 1960

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Not supplemental to other water right on property.

Jack Festly, Jr.
Bill Jack
(Signature of applicant)

Remarks: In explanation of paragraph 2 in which we state the use to be 25 gallons per minute, this is based on a 24 hour operating period.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before February 1, 19 61.

WITNESS my hand this 1st day of December, 19 60.

LEWIS A. STANLEY
STATE ENGINEER
By *James W. Carver, Jr.*
James W. Carver, Jr. ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.06 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is manufacture of commercial fertilizer

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 27, 1960

Actual construction work shall begin on or before February 15, 1962 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1962

Complete application of the water to the proposed use shall be made on or before October 1, 1963

WITNESS my hand this 15th day of February 1961
