Permit No. G-1739

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Ema P. Peek (Name of applicant)

of Lexington (Postoffice Address), county of Morrow

state of OREGON, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Clarks' Canyon Creek, tributary of Willow Creek (Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 80 gallons per minute.

3. The use to which the water is to be applied is sprinkler irrigation and flood irrigation

4. The well or other source is located _____ ft. (N or S) and _____ ft. (E or W) from the SE corner of S4T2S R25EWM (Section or subdivision)

N52°W - Azimuth Bearing 308 True 3564 Feet (see map) from SE Cor. Sec 4 (If preferable, give distance and bearing to section corner)

If there is more than one well, each must be described. Use separate sheet if necessary.

being within the NE 1/4 of SW 1/4 of Sec. 4 Twp. 2 S R. 25 EWM W. M., in the county of Morrow

5. The Portable sprinkler line (Canal or pipe line) to be .35 miles in length, terminating in the SE 1/4 of NW 1/4 (Smallest legal subdivision) of Sec. 4 Twp. 2 R. 25 E W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Peeks' Well #2

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well (Give number of wells, tunnels, etc.) having a diameter of eight inches and an estimated depth of 204 feet. It is estimated that Well cased 70' below ground level feet of the well will require black iron casing. Depth to water table is estimated 47' Good flow of water obtained ^(Kind) at about 170' Well drilled May 1960.

MUNICIPAL SUPPLY—

1789

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$..... **\$4800**
- 15. Construction work will begin on or before **Jan. 15, 1961**
- 16. Construction work will be completed on or before **Jan. 15, 1962**
- 17. The water will be completely applied to the proposed use on or before **Jan. 15, 1963**

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. **Other permit held is 22170**

Emma P. Park
(Signature of applicant)

Remarks: **We have found that by the use of sprinklers we can make water go farther and by irrigating throughout the year much ground can be covered beneficially. It is also planned to use a portion of the water for domestic, livestock, and for fire prevention.**

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19.....

WITNESS my hand this day of, 19

STATE ENGINEER

By ASSISTANT

County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.18 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Peck's well No. 2

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/800 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is December 21, 1960

Actual construction work shall begin on or before February 15, 1962 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1962

Complete application of the water to the proposed use shall be made on or before October 1, 1963

WITNESS my hand this 15th day of February, 1961
