

STATE OF OREGON

COUNTY OF LAKE

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

GERALD A. AND MARY LOUISE GOULD  
15597 DIAMOND RD  
LAKEVIEW, OR 97630

**This superseding permit is issued to describe an amendment for an additional point of appropriation proposed under Permit Amendment Application T-11937 and approved by Special Order Vol. 100, Page 132, entered APR 11 2016, 2016, and to describe an extension of time for complete application of water approved November 6, 2015. This permit supersedes Permit G-15445.**

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-15829

SOURCE OF WATER: WELL 1 AND WELL 2 IN DREWS CREEK BASIN

PURPOSE OR USE: IRRIGATION OF 75.5 ACRES AND POND MAINTENANCE FOR WILDLIFE AND STOCKWATER, CONSTRUCTED UNDER APPLICATION R-84444, PERMIT R-12984

MAXIMUM RATE: 1.12 CUBIC FEET PER SECOND (CFS); BEING 0.94 CFS FOR IRRIGATION AND 0.18 FOR POND MAINTENANCE

PERIOD OF USE: APRIL 1 THROUGH OCTOBER 31 FOR IRRIGATION AND YEAR ROUND FOR POND MAINTENANCE

DATE OF PRIORITY: AUGUST 26, 2002

WELL LOCATIONS:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
40 S	19 E	WM	18	NW NE	WELL 1 - 660 FEET SOUTH AND 60 FEET EAST FROM THE N¼ CORNER OF SECTION 18
40 S	19 E	WM	18	NE NE	WELL 2 - 1280 FEET SOUTH AND 900 FEET WEST FROM THE NE¼ CORNER OF SECTION 18

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

**AUTHORIZED PLACE OF USE:**

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
40 S	19 E	WM	18	NE NE	37.9
40 S	19 E	WM	18	NW NE	37.6
Total					75.5

POND MAINTENANCE				
Twp	Rng	Mer	Sec	Q-Q
40 S	19 E	WM	18	NE NE
40 S	19 E	WM	18	NW NE

Permit Amendment T-11937 Conditions:

1. The combined quantity of water diverted at the new point of appropriation, Well 2, together with that diverted at the old point of appropriation, Well 1, shall not exceed the quantity of water lawfully available at the original point of appropriation, Well 1.
2. Water use measurement conditions:
  - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at each new and existing point of appropriation.
  - b. The water user shall maintain the meter or measuring device in good working order.
  - c. The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the Watermaster shall request access upon reasonable notice.
3. Water shall be acquired from the same aquifer as the original point of appropriation.

Original Permit (G-15445) Conditions:

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order and nature of use of water under the permit.

- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

Groundwater production shall be from no shallower than 50 feet below land surface.

### STANDARD CONDITIONS

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

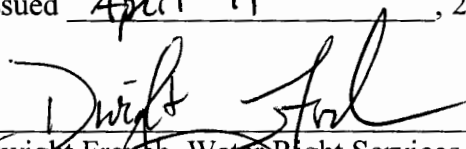

The use of water shall be limited when it interferes with any prior surface or ground water rights

The Director finds that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2021. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Right Examiner (CWRE).

Issued April 11, 2016

Dwight French, Water Right Services Administrator, for  
Thomas M. Byler, Director  
Water Resources Department
