

Permit No. G-1761

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Ivan and Zelma Brown (Name of applicant)

of Bx. 234, Kinzua, Oregon. (Postoffice Address), county of

state of Oregon. do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated East Branch of Ford (Name of stream)

tributary of Walla Walla River.

2. The amount of water which the applicant intends to apply to beneficial use is 0.50 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is Irrigation.

4. The well or other source is located 703 ft. N. and 78 ft. W. from the SE corner of the NE 1/4 of Sec. 37 Tp. 6, N. R. 35 E. W. M. (N. or S.) (E. or W.) (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well each must be described. Use separate sheet if necessary)

being within the SE 1/4 of the NE 1/4 of Sec. 37, Twp. 6 N., R. 35 E., W. M., in the county of Umatilla

5. The used with Sprinkling System. (Canal or pipe line) to be miles in length, terminating in the of Sec. Twp. (Smallest legal subdivision)

R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Brown well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 well having a diameter of 36 inches and an estimated depth of 324 feet. It is estimated that 40 feet of the well will require cement 8'x8' and 13 ft. steel casing. Depth to water table is estimated (Give number of wells, tunnels, etc.) (Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Sprinkling system pressure pump

Give horsepower and type of motor or engine to be used 15 H.P.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Well 775 ft. West from West Branch of West Crockett and 300 ft

East from the East Branch of Ford, both branches of the Little Falls

Falls river. Ground surface nearly level with West Br. of W. Crockett Approx. 5 ft. higher than stream bed East Branch of Ford.

12. Location of area to be irrigated, or place of use

Township N or S	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
G N.	35 E.	27	SE 1/4 of NE 1/4	18.7
G N.	35 E.	27	NE 1/4 of NE 1/4	18.3

Supplemental to right Decreed under Falls Falls River Adjudication for 1" per acre from Oct. 1 st. to June 1st. or June 15 1923 stipulations, governed by quantity of water in river available to the Milton-Fre water Hudson Bay ditch after June 1st to June 15 th.

(If more space required, attach separate sheet)

Character of soil Volcanic ash

Kind of crops raised Peas, Alfalfa, grain crops, pasture-general farm crops.

MUNICIPAL SUPPLY—

1764

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 3,000
- 15. Construction work will begin on or before Already completed (June 4, 1941)
- 16. Construction work will be completed on or before Already completed
- 17. The water will be completely applied to the proposed use on or before Since 6/4/1941

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Adjudicated water right for use to June 15 th. each year 33.3 ac.

Adjudicated in Walla Walla river Decree handed down 1933, under name of Wm. Lloyd Estate, proof #487.

L. Chas Brown & Sons
(Signature of applicant)

Remarks:

Information obtained shows that this well was completed in June 1941 and has been used for Irrigation ever since. original driller is deceased.

STATE OF OREGON, }
County of Marion. } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19

WITNESS my hand this day of, 19

STATE ENGINEER

By ASSISTANT

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same. SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.32 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Brown well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; and the right allowed hereunder for the appropriation of water for lands having a valid prior right shall be limited to the amount necessary to make up any deficiency in water available to said lands under said prior right and the amount allowed herein, together with the amount secured under any other right existing for said lands, shall be limited by the duty of water as fixed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is January 24, 1961

Actual construction work shall begin on or before March 16, 1962 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1962

Complete application of the water to the proposed use shall be made on or before October 1, 1963

WITNESS my hand this 16th day of March, 1961
