The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the proposed place of use under the permit is as follows:

**WITHIN THE CITY OF WOODBURN'S URBAN GROWTH BOUNDARIES**

**Permit Amendment T-12180 Conditions:**

The combined quantity of water diverted at the new points of appropriation, together with that diverted at the old points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation.

Water use measurement conditions:

- a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation.
- b. The water user shall maintain the meters or measuring devices in good working order.
- c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Water shall be acquired from the same aquifer as the original points of appropriation.

**Existing Conditions:**

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for a measuring line, adequate to determine water level elevation in the well at all times. When required by the department, the permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The original permit was issued September 29, 1989. Actual construction work was to begin on or before September 29, 1990, and completed on or before October 1, 1991. By Extension of Time Final Order dated August 14, 2008, the deadline for completing construction is extended to October 1, 2040, and the deadline for applying water to full beneficial use is extended to October 1, 2040.

This permit is for the beneficial use of water without waste. By law, the land use associated with this water must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use granted herein may be made only at times when sufficient water is available to satisfy all prior rights.

Issued this date, November 30, 2016.
