

Permit No. **6-178**

APPLICATION FOR A PERMIT

To appropriate the Underground Waters of the State of Oregon

I, **KARL R. THOMPSON**

(Name of applicant)

of **Route # 4, The Dalles,**

(Postoffice)

county of **Wasco**

state of **OREGON**, do hereby make application for a permit to appropriate the following described underground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

**not a corporation**

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated **Chenoweth Creek**

(Name of stream)

tributary of **Columbia River**

2. The amount of water which the applicant intends to apply to beneficial use is **0.3** cubic feet per second.

3. The use to which the water is to be applied is **irrigation**

4. The place where the water is to be pumped or developed is located

**N 47° 30' W., 690 feet from the one sixteenth (1/16) corner at**

(Give distance and bearing from section corner.)

**southeast corner of NE1/4SW1/4 of Section 36, T. 2 N., R. 12 E.W.M.**

being **NE1/4SW1/4** of Sec. **36** Twp. **2 N.** R. **12 E.**

W.M. **Wasco**

to be **0.3** cubic feet per second

of Sec. **36** Twp. **2 N.**

The following description of the location of the well is hereby given:

**Thompson Well.**

DESCRIPTION OF WORKS

The applicant hereby certifies that the work to be done for the purpose of this permit is as described above.

Witness my hand and seal this \_\_\_\_\_ day of \_\_\_\_\_ 19\_\_\_\_.

one well

100 feet deep

**CANAL SYSTEM OR PIPE LINE—**

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet. grade ..... feet fall per one thousand feet.

(c) Length of pipe, 1320 ft.; size at intake, 4 in.; size at 1320 ft. from intake 4 in.; size at place of use 4 in.; difference in elevation between intake and place of use, 83 ft. Is grade uniform? no. Estimated capacity, 0.3 sec. ft.

10 If pumps are to be used, give size and type 4" turbine type.

Give capacity and type of motor or engine to be used 7½ H. P., electric.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development. approximately 350 feet south of and 25 feet above the channel of Chenowith Creek. Chenowith Creek goes dry, at this place, each season, during the month of May.

12 Location of area to be irrigated, or place of use 40 acres.

Range	Section	Tract	Number Acres
<u>W.M</u>			
<u>2 N</u>	<u>12 E.</u>	<u>36</u>	<u>NE½SW¼</u> 28
<u>2 N</u>	<u>13 E.</u>	<u>36</u>	<u>SE½SW¼</u> 12

Drainage structure.

- 14. Estimated cost of proposed works, \$2500
- 15. Construction work will begin on or before May 1, 1946.
- 16. Construction work will be completed on or before June 1, 1946.
- 17. The water will be completely applied to the proposed use on or before June 1, 1946.

County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.3 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Thomsen well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year, and shall be still further limited to a diversion of not to exceed 0.3 c.f.s.,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the escape of water and waste of ground water.

The priority date of this permit is November 28, 1945

Actual construction work shall begin on or before April 20, 1957 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1957. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

Complete application of the water to the proposed use shall be made on or before October 1, 1958. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

WITNESSED my hand this 20th day of April 1956
