Permit Amendment T-12585 Conditions:

The combined quantity of water diverted at the new additional point of appropriation, Well 5, together with that diverted at the original point of appropriation, Well 6, shall not exceed the quantity of water lawfully available at Well 6 (2.2 CFS).

Water shall be acquired from the same aquifer as the original point of appropriation, Well 6.

Water use measurement conditions:

- a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each new point of diversion.
- b. The water user shall maintain the meters or measuring devices in good working order.
- c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Permit Amendment T-10208 Conditions:

The combined quantity of water diverted at the new additional point of appropriation (Well 5), together with that diverted at Well 7, shall not exceed the maximum rate and duty allowed for Well 7 under Permit G-9867

Water shall be acquired from the Sand and Gravel Aquifer (SGA), the same aquifer developed by the original points of appropriation.

Permit Amendment T-7453 Conditions:

The quantity of water diverted at the new point of appropriation (well), together with the quantity diverted at the old points of appropriation, shall not exceed the quantity of water lawfully available from the original points of appropriation.

Water shall be acquired from the same aquifer as the original points of appropriation.

Water Management and Conservation Plan Conditions:

Duration of Plan Approval:

1. The City of Troutdale Water Management and Conservation Plan is approved and shall in effect until February 13, 2027, unless this approval is rescinded pursuant to OAR 690-086-0920.

Development Limitation:

2. The limitation of the diversion of water under Permit G-9867 established by the extension of time approved on August 16, 2002 is removed and, subject to other limitation or conditions of the permit, the City of Troutdale is authorized to divert up to 4.4 cfs under Permit G-9867.

Plan Update Schedule:

3. The City of Troutdale shall submit an updated plan meeting the requirements of OAR Chapter 690, Division 086 within ten years and no later than August 13, 2026.

Progress Report Schedule:

4. The City of Troutdale shall submit a progress report containing the information required under OAR 690-086-0120(4) by February 13, 2022.

Other Requirements for Plan Submittal:

5. The deadline established herein for the submittal of an updated Water Management and Conservation Plan (consistent with OAR Chapter 690, Division 086) shall not relieve the City of Troutdale from any existing or future requirement(s) for submittal of a Water Management and Conservation Plan at an earlier date as established through other final orders of the Department.

PERMIT CONDITIONS

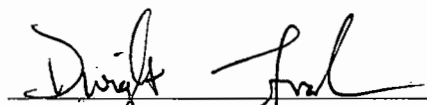

The wells shall be constructed in accordance with the General Standards of the Construction and Maintenance of Water Wells in Oregon

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the wells at all times

The permittee shall install and maintain weirs, meters, or other suitable measuring devices, and shall keep a complete record of the amount of ground water withdrawn.

The original permit was issued October 20, 1982. Actual construction was to begin on or before October 20, 1983. By Extension of Time Final order dated August 16, 2002, the deadline for completing construction and for complete application of water to use was extended to October 1, 2017.

Issued September 7th, 2017
