

Permit No. **G-179**

APPLICATION FOR A PERMIT

To Appropriate the Underground Waters of the State of Oregon

I, **Richard Hoefler**

(Name of applicant)

of **Bonanza**

(Postoffice)

county of **Klamath**

state of **Oregon**

do hereby make application for a permit to appropriate the following described underground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated **Lost River**

(Name of stream)

tributary of **Klamath River**

2. The amount of water which the applicant intends to apply to beneficial use is **1 and 1/2** cubic feet per second

3. The use to which the water is to be applied is **Irrigation**

4. The place where the water is to be pumped or developed is located

**S 7<sup>th</sup> E, 2221 feet from the iron monument which marks the Southeast**

**corner of Section 25, T38S, R11E, W. 1.**

to be used for the

of Sec **25**

Twp **38**

R **11** W **1**

W. 1.

(Name of pipe line)

to be

(Smallest level water on)

of Sec

being shown through plan in the

the

DESCRIPTION OF WORK

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) four feet; width on bottom two feet; depth of water one feet; grade 0.5% feet fall per one thousand feet.

(b) At three-quarter miles from headgate: width on top (at water line) same feet; width on bottom same feet; depth of water same feet; grade same feet fall per one thousand feet.

(c) Length of pipe, same ft.; size at intake, same in.; in size at same ft. from intake same in.; size at place of use same in.; difference in elevation between intake and place of use, same ft. Is grade uniform? Yes Estimated capacity, same sec. ft.

10. If pumps are to be used, give size and type Motor driven turbine  
2200 gals. per min.

Give capacity and type of motor or engine to be used 220 AC  
220 Volt 3 phase 60 cycle

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel give the distance to be the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Tract No.	Part	Section	40-acre Tract	Number Acres To Be Irrigated
11	E	25	NE 1/4 SE 1/4	20
			SE 1/4 SE 1/4	37
		30	NE 1/4 NE 1/4	15

13. (a) Give name of person or firm to whom the water is to be sold.

(b) Give name of person or firm to whom the water is to be sold.

(c) Give name of person or firm to whom the water is to be sold.

(d) Give name of person or firm to whom the water is to be sold.

(e) Give name of person or firm to whom the water is to be sold.

- 14. Estimated cost of proposed works, \$ 5000.00
- 15. Construction work will begin or on before Well completed and ditches plowed.
- 16. Construction work will be completed on or before Completed.
- 17. The water will be completely applied to the proposed use on or before

*Richard Hoefler*  
 (Signature of applicant)

Remarks: This application is for the purpose of including an additional  
 72 acres to be irrigated from the well operated under permit  
 No. V-290.

STATE OF OREGON, )  
 County of Marion, ) ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with all returns on or before , 19.

WITNESS my hand this day of

STATE OF OREGON,

PERMIT

County of Marion,

} ss.

This is to certify that I have examined the foregoing application and do hereby grant the same. SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.90 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from the flow of

The use to which this water is to be applied is Irrigation.

If for irrigation, this appropriation shall be limited to 1/20th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion that shall not exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; and is subject to the terms and conditions of a stipulation recorded on Page 1038, Volume 3, Miscellaneous Records of the State Engineer and by reference made a part hereof,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water. The priority date of this permit is November 16, 1956

Construction work shall begin on or before April 20, 1957 and shall be completed on or before August 1, 1957

The works constructed shall include an air line and pressure gauge or an access port bearing line, adequate to determine water level elevation in the well at all times.

Application of the water to the proposed use shall be made on or before August 1, 1958

Witness my hand and seal this 20th day of April, 1956
