

STATE OF OREGON

COUNTY OF UNION

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

R.D. MAC INC.
HARRY T. COLLMAN AND GREG BLACKMAN
PO BOX 1086
LA GRANDE, OREGON 97850

This superseding permit is issued to describe an amendment for a change in place of use proposed under Permit Amendment Application T-12770 and approved by Special Order Vol. 109, Page 194, entered August 24, 2018, and to describe an extension of time for complete application of water approved July 29, 2016. This permit supersedes Permit G-13726.

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-14698

SOURCE OF WATER: A WELL IN GRANDE RONDE RIVER BASIN

PURPOSE OR USE: PRIMARY IRRIGATION OF 19.9 ACRES AND SUPPLEMENTAL IRRIGATION OF 145.5 ACRES

MAXIMUM RATE: 2.06 CUBIC FEET PER SECOND

PERIOD OF USE: MAY 1 THROUGH OCTOBER 31

DATE OF PRIORITY: MARCH 11, 1998

POINT OF DIVERSION IS LOCATED AS FOLLOWS:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
3 S	38 E	WM	15	SW NE	2560 FEET SOUTH AND 1267 FEET EAST FROM THE N1/4 CORNER OF SECTION 15

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

PRIMARY IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
3 S	38 E	WM	15	NE NE	6.1
3 S	38 E	WM	15	SE NE	13.8
Total					19.9

SUPPLEMENTAL IRRIGATION					
3 S	38 E	WM	15	NE NE	13.5
3 S	38 E	WM	15	NW NE	38.2
3 S	38 E	WM	15	SW NE	34.5
3 S	38 E	WM	15	SE NE	20.0
3 S	38 E	WM	15	NE SE	25.0
3 S	38 E	WM	15	NW SE	14.3
Total					145.5

Extension of Time Conditions:

Last Extension Condition

This is to be the last extension of time granted for Permit G-13726. Any future extensions of time requests will be denied.

Original Permit Conditions:

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

Use of water under authority of this permit may be regulated if analysis of data available after the permit is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

If the number, location, or construction of any well deviates from that proposed in the permit application or permit conditions, the conclusions of the Proposed Final Order or Final Order under which this permit was granted may be revised, conditions may be appropriately revised, or this permit may not be valid.

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the Department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

The original permit was issued September 1, 1999. Complete application of the water to the use was to be made on or before October 1, 2002. By Extension of Time Final Order dated July 29, 2016, the deadline for complete application of water to use was extended to October 1, 2018. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued AUG 24 2018;

Dwight French, Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department
