Permit Amendment T-12763 Conditions:

The combined quantity of water diverted at the additional point of appropriation (Well 3), together with that diverted at the old point of appropriation (Well 2), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well 2).

Water use measurement conditions:

- a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion (new and existing).
- b. The water user shall maintain the meters or measuring devices in good working order.
- c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Wells 2 and 3 shall be continuously cased and continuously sealed to meet the current water well construction standards.

Extension of Time Conditions:**Checkpoint Condition**

The permit holder must submit a completed Progress Report Form to the Department by October 1, 2012, 2017, and 2022.

- a) At each checkpoint, the permit holder shall submit and the Department shall review evidence of the permit holder's diligence towards completion of the project and compliance with terms and conditions of the permit and extension. If, after this review, the Department determines the permit holder has not been diligent in developing and perfecting the water use permit, or complied with all terms and conditions, the Department shall modify or further condition the permit or extension to ensure future

compliance, or begin cancellation proceedings on the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410, or require submission of a final proof survey pursuant to ORS 537.250;

- b) The Department shall provide notice of the receipt of progress reports in its weekly notice and shall allow a 30-day comment period for each report. The Department shall provide notice of its determination to anyone who submitted comments.

ORIGINAL CONDITIONS

The well shall be constructed in accordance with the general standards for the construction and maintenance of water wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The original permit was issued April 24, 1979. Actual construction work was to begin on or before April 24, 1980. By extension of time final order dated November 20, 2008, the deadline for completing construction and for complete application of water to use was extended to October 1, 2027.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Right Examiner (CWRE).
