A description of the proposed place of use under this permit is as follows:

QUASI MUNICIPAL
CROOKED RIVER RANCH WATER CO. SERVICE AREA

Permit Amendment T-11961 Conditions:

The combined quantity of water diverted at the new point of appropriation, together with that diverted at the old points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation.

Water use measurement conditions:

- a) Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at each point of appropriation (new and existing).
- b) The water user shall maintain the meters or measuring devices in good working order.
- c) The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Water shall be acquired from the same aquifer as the original points of appropriation.

Extension of Time Conditions:

Development Limitations –

Appropriation of any water beyond 3.75 cfs under this Permit (modified by Permit Amendments T-7828 and T-9663) shall only be authorized upon issuance of a final order approving a Water Management and Conservation Plan (WMCP) under OAR Chapter 690, Division 86. The required WMCP shall be submitted to the Department within three years of an approved extension application. Use of water under this Permit (modified by Permit Amendments T-7828 and T-9663) must be consistent with this and subsequent WMCP’s approved under OAR Chapter 690, Division 86 on file with the Department.

The deadline established in this Final Order for submittal of a WMCP shall not relieve a permit holder of any existing or future requirement for submittal of a WMCP at an earlier date as established through other orders of the Department. A WMCP submitted to meet the requirements of this order may also meet the WMCP submittal requirements of other Department orders.

Water Management and Conservation Plan

Duration of Plan Approval:

Crooked River Ranch Water Company’s Water Management and Conservation Plan is approved and shall remain in effect until **May 11, 2025**, unless this approval is rescinded pursuant to OAR 690-086-0920.

Development Limitation:

The limitation of the diversion of water under Permit G-11376 established in the Final Order approving an Extension of Time for Permit G-11376 (*issued on November 30, 2011*) remains unchanged. Subject to other limitations or conditions of the permit, therefore, at this time Crooked River Ranch Water Company remains authorized to divert up to **3.75 cfs** (*out of the total permitted 5.0 cfs*) of water under Permit G-11376.

Plan Update Schedule:

Crooked River Ranch Water Company shall submit an updated plan meeting the requirements of OAR Chapter 690, Division 086 within 10 years and no later than **November 11, 2024**.

Progress Report Schedule:

Crooked River Ranch Water Company shall submit a progress report containing the information required under OAR 690-086-0120(4) by **May 11, 2020**.

Other Requirements for Plan Submittal:

The deadline established herein for the submittal of an updated Water Management and Conservation Plan (consistent with OAR Chapter 690, Division 086) shall not relieve Crooked River Ranch Water Company from any existing or future requirement(s) for submittal of a Water Management and Conservation Plan at an earlier date as established through other final orders of the Department.

Original Permit Conditions:

Within one year from the date the Water Resources Commission adopts rules describing the schedules, standards and procedures for water conservation management plans by water suppliers, Crooked River Ranch Water Company shall submit a plan which is consistent with said rules.

Within one year of permit issuance, Crooked River Ranch Water Company shall prepare a plan/timetable for the Water Resources Commission which shall indicate the steps which the Water Company intends to pursue to obtain a long-term water supply.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air-line and pressure gauge adequate to determine water level elevation in the wells at all times. When required by the department, the permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Actual construction work shall begin on or before November 18, 1992, and shall be completed on or before October 1, 2028. Complete application of the water shall be made on or before October 1, 2028.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

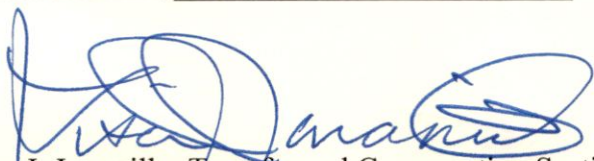

This permit is for beneficial use of water without waste. The water user is advised that new regulations may require use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.
