

STATE OF OREGON

COUNTY OF MULTNOMAH

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

UNIVERSITY OF PORTLAND
ATTN: JENNIE CAMBIER
5000 N WILLAMETTE BLVD
PORTLAND, OR 97203

This superseding permit is issued to describe an amendment for an additional point of appropriation and change of place of use proposed under Permit Amendment Application T-13616 and approved by Special Order Vol. 127, Page 283, entered JAN 25 2023, and to describe an extension of time for complete application of water approved January 30, 2015. This permit supersedes Permit G-16805.

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-16653

SOURCE OF WATER: 2 WELLS IN WILLAMETTE RIVER BASIN

PURPOSE OR USE: QUASI-MUNICIPAL USE

MAXIMUM RATE: 1.23 CUBIC FEET PER SECOND

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: APRIL 7, 2006

1 N	1 E	WM	17	SW NW
1 N	1 E	WM	18	NE NE
1 N	1 E	WM	18	NW NE
1 N	1 E	WM	18	SW NE
1 N	1 E	WM	18	SE NE
1 N	1 E	WM	18	NE NW
1 N	1 E	WM	18	SE NW

Permit Amendment T-13616 Conditions:

The combined quantity of water diverted at the new additional point of appropriation (WELL 5), together with that diverted at the original point of appropriation (WELL 1), shall not exceed the quantity of water lawfully available at the original point of appropriation.

Water use measurement conditions:

- a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at each point of appropriation at each new point of appropriation with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.
- b. The water user shall maintain the meter(s) or measuring device(s) in good working order.
- c. The water user shall allow the Watermaster access to the meter(s) or measuring device(s); provided however, where the meter(s) or measuring device(s) is/are located within a private structure, the Watermaster shall request access upon reasonable notice.

Water shall be acquired from the same aquifer as the original point of appropriation.

Original Permit Conditions:

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter. The totalizing flow meter must be installed and maintained in good working order consistent with those standards identified in OAR 690-507-645(1) through (3). The permittee shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may

be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.

- B. The permittee shall allow the watermaster access to the meter; provided however, where the meter is located within a private structure, the watermaster shall request access upon reasonable notice.

STANDARD CONDITIONS

If the number, location, source, or construction of any well deviates from that proposed in the permit application or required by permit conditions, this permit may not be valid, unless the Department authorizes the change in writing.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

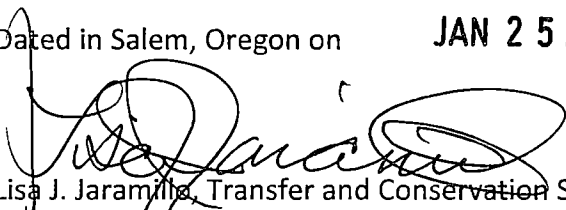

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Completion of construction and complete application of the water was to be made on or before October 1, 2010. By Extension of Time Final Order dated January 30, 2015, the completion of construction and application of the water was extended to on or before October 1, 2032. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Dated in Salem, Oregon on **JAN 25 2023**

Lisa J. Jaramilla, Transfer and Conservation Section Manager, for
DOUGLAS E. WOODCOCK, ACTING DIRECTOR
Oregon Water Resources Department
