STATE ENGINEER
SALEM, OREGON

Permit No. G-1891

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Gerald K. Falk (Name of applicant)

of RFD #2 Box 44 Harrisburg (Postoffice Address), county of Linn

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Camous Creek (Name of stream)

tributary of Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 25 gallons per minute.

3. The use to which the water is to be applied is Irrigation of pasture and crops

4. The well or other source is located 314 ft. S (N or S) and 2100 ft. E (E or W) from the NE corner of S. 34, T. 14 S., R. 4W. (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well each must be described Use separate sheet)

being within the NE 1/4 of N. W. 1/4 of Sec. 34 Twp. 14S. R. 4W. W. M., in the county of Linn

5. The Main Pipe line (Canal or pipe line) to be 660 ft. miles in length, terminating in the NE 1/4 of the NW 1/4 (Smallest legal subdivision) of Sec. 34 Twp. 14S. R. 4W. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Falk No. 1,

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of One pump well. (Give number of wells, tunnels, etc.) having a diameter of 6 inches and an estimated depth of 67 feet. It is estimated that 50 feet of the well will require steel (Kind) casing. Depth to water table is estimated 10 (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe. 660 ft.; size at intake. 3 in.; in size at 660 ft. from intake 3 in.; size at place of use 2 in.; difference in elevation between intake and place of use. -1 ft. Is grade uniform? Yes. Estimated capacity. .2 sec. ft.

10. If pumps are to be used, give size and type Berkeley Centrifugal Deep Well Jet

1 1/2" x 2"

Give horsepower and type of motor or engine to be used 2 H.P. Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Camous creek is approximately 925 feet from the well site. Stream bed is approximately 6 feet lower than ground surface at well.

12. Location of area to be irrigated, or place of use

Township N or S	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
148	101	34	SE ¹ of NW ¹	12

(If more space required, attach separate sheet.)

Character of soil silt loam

Kind of crops raised forage

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$1200.00
- 15. Construction work will begin on or before Completed
- 16. Construction work will be completed on or before
- 17. The water will be completely applied to the proposed use on or before October 1, 1965

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

H. N. Laik
(Signature of applicant)

Remarks: Item 15 & 16 reflects the fact that the works of improvement have been completed. The well was dug for domestic use and then converted to Irrigation.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19

WITNESS my hand this day of, 19

STATE ENGINEER

By ASSISTANT

County of Marion.

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.06 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Well No. 1

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/30 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 1 acre feet per acre for each acre irrigated during the irrigation season of each year: provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is

Actual construction work shall begin on or before and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19

Complete application of the water to the proposed use shall be made on or before October 1, 19

WITNESS my hand this day of 19

STATE ENGINEER
