If the applicant is a corporation, give date and place of incorporation

none

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated mill creek

(Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 1/2 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is pasture & garden

4. The well or other source is located 300 ft. S and 1150 ft. E from the NW corner of J. Mc Haley D. L. C. 37

(If preferable, give distance and bearing to section corner)

5. The well is located in the SE 1/4 SW 1/4 of Sec 25, Twp 85, R 2W, Marion

6. The proposed location being shown on the accompanying map

7. The proposed location being shown on the accompanying map

DESCRIPTION OF WORKS

8. The development to be used for the control and recovery of water

9. The development to be used for the control and recovery of water consists of 1 well having a diameter of 8 inches and an estimated depth of 30 feet. It is estimated that 30 feet of the well will require cast iron casing. Depth to water table estimated 20 feet.

CANAL SYSTEM OR PIPE LINE

9 (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet; fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet; fall per one thousand feet.

(c) Length of pipe, *Portable* ft.; size at intake, _____ in.; in size at _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity _____ sec. ft.

10. If pumps are to be used, give size and type

Give horsepower and type of motor or engine to be used *5 H. Elec. motor*

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channel, and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
<i>8 S</i>	<i>2 W</i>	<i>25</i>	<i>SE 1/4 SW 1/4</i>	<i>5 a.</i>
			<i>SW 1/4 SE 1/4</i>	<i>1 a.</i>

If more space required, attach separate sheets

Character of soil

Kind of crops raised

pasture and lawn

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19

14. Estimated cost of proposed works, \$ 1000.

15. Construction work will begin on or before NOV. 1-55

16. Construction work will be completed on or before NOV. 1-56

17. The water will be completely applied to the proposed use on or before NOV. 1-57

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Calvin N. Yarrow
(Signature of applicant)

Remarks: over head watering size to be determined

STATE OF OREGON, |
County of Marion, | ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before , 19

WITNESS my hand this day of 19

County of Marion.

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.075 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring a line, adequate to determine water level elevation in the well at all times.

The priority date of this permit is

August 12, 1955

Actual construction work shall begin on or before

September 22, 1956

and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1957

Complete application of the water to the proposed use shall be made on or before October 1, 1958

WITNESS my hand this 22nd day of September, 1955
