

Permit No. G-1908

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, J. Y. MENDAZONA

(Name of applicant)

of Route 2, Ontario, county of Malheur

(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Snake River

(Name of stream)

tributary of Columbia

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 200 gallons per minute.

3. The use to which the water is to be applied is Irrigation

N. 39°10'E S1

4. The well or other source is located ft. and ft. from the corner of Section 10, Township 17 S., Range 47 E.W.M.

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well each must be described. Use separate sheet if necessary)

being within the SW of SW of Sec. 10, Twp. 17 S., R. 47 E. W. M., in the county of Malheur

5. The ditch to be 2500 feet in length, terminating in the SE of SW of Sec. 10, Twp. 17 S., R. 47 E. W. M., the proposed location being shown throughout on the accompanying map.

(Canal or pipe line)

(Smallest legal subdivision)

6. The name of the well or other works is Well No. 1

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

A well which will pump water into a ditch for the purpose of supplemental irrigation for the irritable portion of Sec. 10, Twp 17 S., R. 47 E.W., Malheur County, Oregon

8. The development will consist of one well having a diameter of 10 inches and an estimated depth of 200 feet. It is estimated that feet of the well will require 12 inch casing. Depth to water table is estimated

(Give number of wells, tunnels, etc.)

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 4 feet feet; width on bottom 3 feet; depth of water 1 1/2 ft. feet; grade about 3/8 feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, 6 ft ft.; size at intake, 6 inch in.; in size at _____ ft. from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? Yes Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type One 7 HP, three-phase Peerless

Give horsepower and type of motor or engine to be used Horse power, Peerless

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

About 100 to 2000 feet from nearest point of river

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
17	47	20		33.2
17	47	20		

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 24,000.00
- 15. Construction work will begin on or before Immediately
- 16. Construction work will be completed on or before July 15, 1961
- 17. The water will be completely applied to the proposed use on or before July 18, 1961

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. The 80 acres has a 52 acre water right from Owyhee Irrigation District, and the well water will supplement the 52 acres and irrigate the additional lands.

Certificate 24707

J. J. Mendez
(Signature of applicant)

Remarks:

STATE OF OREGON, }
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.80 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from well No. 1

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; the right allowed hereunder for the appropriation of water for lands having a valid prior right shall be limited to the amount necessary to make up any deficiency in water available to said lands under said prior right and the amount allowed herein, together with the amount secured under any other right existing for said lands, shall be limited by the duty of water as fixed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 19, 1961

Actual construction work shall begin on or before September 11, 1962 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1962

Complete application of the water to the proposed use shall be made on or before October 1, 1962

WITNESS my hand this 11th day of September, 1961
