Remarks:

It is estimated that 15 individuals will be normally using water for domestic purposes, for industrial purposes, we anticipate having one 15 or 20 H.P. Boiler for heat and steam power. A small Hot water boiler for floor heat in a truck shop. We shall also use the water for washing our trucking equipment. We would like to have ample water so that in the future we could supply water to a boat moorage on our property and also have enough water for blending with Glycol to make anti-freeze, and this latter could be in amounts upto 3000 gallons a day on occassions.
