Permit No. G-1926

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Allen Lavender
Rt 2 Box 1993 Uak, Or (Name of applicant)
of Malheur, county of Malheur,
OREGON (Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willow Creek (Name of stream) tributary of Malheur River

2. The amount of water which the applicant intends to apply to beneficial use is 1000 cubic feet per second or 1000 gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located 84 ft. N and 43 ft. E from the corner of Center 1/4 Corner Sec 31 T 16 S R 44 E (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SW NE of Sec. 31, Twp. 16 S, R. 44 E W. M., in the county of Malheur

5. The 1 (Canal or pipe line) to be 1 miles in length, terminating in the SE NE (Smallest legal subdivision) of Sec. 31, Twp. 16 S, R. 44 E, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Lavender No 1

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 well (sump) (Give number of wells, tunnels, etc.) having a diameter of 48 inches and an estimated depth of 33 feet. It is estimated that 33 feet of the well will require CMP (Kind) casing. Depth to water table is estimated 5 (Feet)

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 3000⁰⁰
- 15. Construction work will begin on or before It has begun
- 16. Construction work will be completed on or before June 1962
- 17. The water will be completely applied to the proposed use on or before June 1962

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. This same acreage has a water right under the Vale-Oregon Irrigation District
Alton Lavender
(Signature of applicant)

Remarks: The sump was dug using a clam shell bucket. After breaking through a hard pan and lake laid sediments into a thick gravel strata the water rose to within 5' of N.G.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same. SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.16 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Lavender well No. 1

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; and the right allowed hereunder for the appropriation of water for lands having a valid prior right shall be limited to the amount necessary to make up any deficiency in water available to said lands under said prior right and the amount allowed herein, together with the amount required under any other right existing for said lands, shall be limited by the duty of water as fixed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 15, 1921

Actual construction work shall begin on or before October 1, 1921 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1921

Complete application of the water to the proposed use shall be made on or before October 1, 1921

WITNESS my hand this 15th day of October, 1921
