CERTIFICATE NO. 38094

## APPLICATION FOR A PERMIT

## To Appropriate the Ground Waters of the State of Oregon

I, Fitzgerald Bros., a Partnership.
of DLUSH, county of LAKE,
state of
If the applicant is a corporation, give date and place of incorporation
1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated HONEY CE. (Name of stream)
tributary of LART LAKE
2. The amount of water which the applicant intends to apply to beneficial use is 11.83 cubic feet per second or 1200 gallons per minute. Well No 7
3. The use to which the water is to be applied is ZECIGATION
4. The well or other source is located ft. and ft. from the corner of 54/40:11 4220 from the section Corner (Section or subdivision)
corner of 54/040 W 4220 from the 1/2 Section Corner (Section or subdivision)
Common for Secs. 9 of 7 365 R 245-11 M.  (If preferable, give distance and bearing to section corner)
(If there is more than one we'' each must be described. Use separate sheet if necessary)
being within the NESE of Sec. 17 Twp. 365 R 24E
W. M., in the county of
5. The Cond to be 134 miles
in length, terminating in the NWNE SEC. 22 of Sec Twp. 365.  R. 24 E., W. M., the proposed location being shown throughout on the accompanying map.
R. 29 E. W. M., the proposed location being shown throughout on the accompanying map.
6. The name of the stell or other works is
DESCRIPTION OF WORKS
7. If the flow to be utilized is artesian, the works to be used for the antrol and conservation of the supply when not in use must be described.

County of Marion.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed ......10.42......... cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from 2 wells; being 2.2.0.f.s. from Well #1 and 8.22 c.f.s. from Well #2. The use to which this water is to be applied is supplemental irrigation If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed ... 3.... acre feet per acre for each acre irrigated during the irrigation season of each year; the right .allowed hereunder for the appropriation of water for lands having a valid prior right shall be limited to the amount necessary to make up any deficiency in water available to said lands under said prior right and the amount allowed herein, together with the amount secured under any other right existing for said lands, shall be limited by the duty of water as fixed herein. and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall

keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 2, 1961

Actual construction work shall begin on or before ... December. 4. 1962

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.63

Complete application of the water to the proposed use shall be made on or before October 1, 1964

WITNESS my hand this. day of . December
