ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 3000.00
- 15. Construction work will begin on or before Jan 1, 1962
- 16. Construction work will be completed on or before April 1, 1962
- 17. The water will be completely applied to the proposed use on or before three years

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Courtney ditch

Wayne K. McFaul
(Signature of applicant)

Remarks: Practically speaking the Courtney Ditch receives very little water after the 15th of July and this well is intended to supplement that supply. 100 acres are being irrigated now and the remaining 100 acres are to be leveled in the next few years. About 30 acres next year.

Due to the water table in this area I see no reason why I would be infringing upon anyone else's water right

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.47 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation and supplemental irrigation.

If for irrigation, this appropriation shall be limited to 0.47 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year. This amount allowed hereunder for the appropriation of water for lands having a valid prior right shall be limited to the amount necessary to make up any deficiency in water available to said lands under said prior right and the amount allowed herein, together with the amount secured under any other right existing for said lands, shall be limited by the duty of water as fixed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 30, 1901. Actual construction work shall begin on or before January 9, 1903 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1903. Complete application of the water to the proposed use shall be made on or before October 1, 1903.

WITNESS my hand this 14 day of January, 1903. STATE ENGINEER
