

Permit No. G-1978

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, LEHMAN C. MERY & JEANNIE C. MERY
(Name of applicant)
of Rt 2 Box 188, Milton-Freewater., county of Christie,
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated Middle Branch of Mud Creek.
(Name of stream)

tributary of Walla Walla river

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic
feet per second or 1.8 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 660 ft. S and 1150 ft. E. from the NW 1/4
(N or S) (E or W)
corner of Section 31,
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary.)

being within the NW 1/4 of NW 1/4 of Sec. 31, Twp. 6 N., R. 35 E.
W. M., in the county of _____

5. The Sprinkling system to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____
(Smallest legal subdivision)

R. _____ W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Mery.

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

8. The development will consist of 1 well having a
(Give number of wells, tunnels, etc.)
diameter of 10 inches and an estimated depth of 92 feet. It is estimated that 40
feet of the well will require Steel casing. Depth to water table is estimated 30 ft.
(Kind) (Feet)

1978

CANAL SYSTEM OR PIPE LINE-- Used in connection with sprinkling system.

9. (a) Give dimensions at each point of canal where water falls changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in use at from intake, in.; size at place of use, in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give make and type Turbine. Reciprocating.

Give horsepower and type of motor or engine to be used S.H.P.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels, the difference in elevation between the stream bed and the ground surface at the source of development.

Well No. 637 is located on the north side of the stream, about 100 feet from the stream. The difference in elevation between the stream bed and the ground surface at the source of development is 10 feet.

12. Location of area to be irrigated, or place of use.

Section 31, Township 6 N., Range 35 E., N.M., thence East Thirty (30) rods, thence South 30 rods, thence West 30 rods, thence North 30 rods, to place of beginning, all of the Williams County, N.M.

Property description: Commencing at a point 40 rods, East of North-West corner of Section 31, in Township 6 N., R. 35 E., N.M., thence East Thirty (30) rods, thence South 30 rods, thence West 30 rods, thence North 30 rods, to place of beginning, all of the Williams County, N.M.

If the area is to be irrigated, attach a map to this report.

Character of land

W. L. L. L.

Kind of crop to be raised on the land

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ 2200⁰⁰
15. Construction work will begin on or before Already began
16. Construction work will be completed on or before Already completed
17. The water will be completely applied to the proposed use on or before Sept. 1 1961.
18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Supplemental to Irrigation right for 14 acres from Middle branch of Mud Creek, new irrigation .5 acre.

Lehman Chazy Jeanne C. Mizz
(Signature of applicant)

Remarks: I am unable to properly irrigate my crops on the amount of water supplied from the stream.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER

By _____

ASSISTANT

County of Marion.

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to the land and shall not exceed of water for each acre of land irrigated from source of appropriation or its equivalent in case of rotation with other water users from source of appropriation.

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year; and the right allowed hereunder for the appropriation of water for lands having a valid water right shall be limited to of the water available for appropriation from the source of appropriation. The diversion of water shall be limited by the duty of water as fixed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The permittee shall complete the works on or before

thereafter to be completed with the season of irrigation and be completed on or before October 1, 1962

Complete application of the water to the proposed use shall be made on or before October 1, 1962

WITNESS my hand this 12 day of January, 1962.
