Permit No. G-1984

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Lyle J. Simrison (Name of applicant)
of Rt 3 Box 144 (Postoffice Address), county of Tillamook,
state of Oregon, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated Simrison Creek (Name of stream)
tributary of Tillamook River

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic
feet per second or 2.20 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 865 ft. N 63' and ft. 16 45' to the
(N or S) (E or W)
corner of 1/4 corner Sec. 20/21 T. 2 S R. 9 W (Section or subdivision)
S 63° 45' E 865 ft from the 1/4 corner between
(If preferable, give distance and bearing to section corner)
Sec 20/21

(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the NW 1/4 SW 1/4 of Sec. 21, Twp. 2 S, R. 9 W,
W. M., in the county of Tillamook

5. The _____ (Canal or pipe line) to be _____ miles
in length, terminating in the _____ of Sec. _____, Twp. _____
(Smallest legal subdivision)

R. _____ W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is _____

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

8. The development will consist of 1 Irrigation Well (Give number of wells, tunnels, etc.)
having a
diameter of 10 inches and an estimated depth of 50 feet. It is estimated that 50
feet of the well will require 1 Trcl casing. Depth to water table is estimated 15 feet.
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet, width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake _____ in.; in size at _____ in.; from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type _____

Give horsepower and type of motor or engine to be used _____

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use _____

Township N. or S.	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated

(if more space required, attach separate sheet)

Character of soil _____

Kind of crops raised _____

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 700.00
- 15. Construction work will begin on or before As soon as possible
- 16. Construction work will be completed on or before June 1st 1962
- 17. The water will be completely applied to the proposed use on or before June 1st 1962

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Water Right on Simmons Creek
 Appl # 558, Permit # 233, Cert. # 734
 Appl # 17450, Permit # 13163, Cert. # 12461
 Appl # 24761, Permit # 19519, Cert. # 21926
 J. H. Simmons
 (Signature of applicant)

Remarks:

Donner Simmons and myself have a water right on Simmons Creek, Donner has a sprinkling system he operates from the ditch, if there is not enough water during the dry months in the well for our needs, we can find the water from the creek. The water from the creek is also used for domestic purposes. Because there is not enough water in the creek we can flood our gate and find it necessary to drill the well to have enough water to irrigate the entire place.

STATE OF OREGON, }
 County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before January 16, 1962.

WITNESS my hand this 16th day of November, 1961.

LEWIS A. STANLEY

STATE ENGINEER

By

Walter Perry

ASSISTANT

County of Marion.

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.35 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/60th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 1 acre feet per acre for each acre irrigated during the irrigation season of each year; and the right allowed hereunder for the appropriation of water for lands having a valid prior right shall be limited to the amount necessary to make up any deficiency in the water available to said lands under said prior right and the amount allowed herein, together with the amount secured under any other right existing for the same lands, shall not be limited by the duty of water as fixed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is

Actual construction work shall begin on or before and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19

Complete application of the water to the proposed use shall be made on or before October 1, 19

WITNESS my hand this day of 19
