

Permit No. G- 1995

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Orval L. & Jessie E. Sullivan (Name of applicant) of P.O. Box 5, Springfield, county of Lane state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Little Fox, Willamette (Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located ft. (N or S) and ft. (E or W) from the corner of Section or subdivision

(If preferable, give distance and bearing to section corner)

If there is more than one well, each must be described. Use separate sheet if necessary!

being within the NW 1/4 of Sec. Twp. R. W. M., in the county of

5. The (Canal or pipe line) to be miles in length, terminating in the of Sec. Twp. R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of (Give number of wells, tunnels, etc.) having a diameter of inches and an estimated depth of feet. It is estimated that feet of the well will require (Kind) casing. Depth to water table is estimated (Feet)

CANAL SYSTEM OR PIPE LINE -

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate, width on top (at water line) feet; width on bottom

feet; depth of water feet; grade feet fall per one thousand feet.

(b) At _____ miles from headgate; width on top (at water line) feet; width on bottom feet; depth of water feet;

grade feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake, _____ in.; in size at _____ ft. from intake _____ in.; size at place of use _____ in.; difference in elevation between

intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type _____

Give horsepower and type of motor or engine to be used _____

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or other channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
-------------------	---------------------------------------	---------	------------------	------------------------------

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

WITNESS my hand this ~~30th~~ 11th day of ~~November~~ December ~~1961~~ 1961

LEWIS A. STANLEY

STATE ENGINEER

By

Walter N. Perry
Walter N. Perry

ASSISTANT

County of Marion.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed ... cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from ...

The uses to which this water is to be applied is ...

If for irrigation, this appropriation shall be limited to ... of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed ... acre feet per acre for each acre irrigated during the irrigation season of each year: ...

and shall be subject to a rotation system as may be ordered by the proper state officer.

The well shall be used as necessary in accordance with good practice and if the flow is artesian the well shall include proper capping and control valve to prevent the waste of ground water.

The well, as constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The primary date of this permit is ...

Actual construction work shall begin on or before ... and shall

thereafter be completed on or before ...

...

WITNESSED my hand and seal of office this ... day of ... 19...
