Permit No. G-2035

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, BOISE CASCADE CORPORATION, a Delaware Corporation, of P. O. Box 916, La Grande, county of Union, state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

May 28, 1957

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Phillips Cr.

(Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 1/4 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is Mill Pond and Fire Protection, and

Log Sprinkling

4. The well or other source is located ft. and ft. from the corner of N 65° 57' E a distance of 790.21 ft from the center of Section 16

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SW 1/4, NE 1/4 of Sec. 16, Twp. 1N, R. 39E

W. M., in the county of Union

5. The Pipe Line 3-1/2" to be 1200 ft. miles

(Canal or pipe line)

in length, terminating in the NE 1/4 SE 1/4 of Sec. 16, Twp. 1N

(Smallest legal subdivision)

R. 39E W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Boise Cascade Corporation

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

6" shut off valve installed on top of casing

8. The development will consist of one having a diameter of 6 inches and an estimated depth of 308 feet. It is estimated that 287'

(Give number of wells, tunnels, etc.)

feet of the well will require 6" casing. Depth to water table is estimated 303'

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 6" casing feet; width on bottom feet; depth of water 308 feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 1200 ft.; size at intake, 3-1/2" in.; in size at ft. from intake 3-1/2" in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? . Estimated capacity, 1/4 sec. ft.

10. If pumps are to be used, give size and type no pump

Give horsepower and type of motor or engine to be used none

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N or S	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Use
1N	39E	16	NE 1/4 SE 1/4	Mill use
			NE 1/4 SE 1/4	Mill pond
			SW 1/4 NE 1/4, NW 1/4 SE 1/4, NE 1/4 SE 1/4	Log Sprinkling

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised none

MUNICIPAL SUPPLY--

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 2,000.00
- 15. Construction work will begin on or before
- 16. Construction work will be completed on or before Completed
- 17. The water will be completely applied to the proposed use on or before Completed

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.25 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Boise Cascade Corporation Well

The use to which this water is to be applied is operation of a sawmill, including log deck sprinkling, maintenance of a log pond and fire protection.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is January 12, 1962

Actual construction work shall begin on or before March 22, 1963 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1963

Complete application of the water to the proposed use shall be made on or before October 1, 1964

WITNESS my hand this 22nd day of March, 1962.
