

RECEIVED RECEIVED

STATE ENGINEER PERMIT No. G-2055  
SARASOTA OREGON

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Leo V. Moore (Name of applicant)  
of Mid-Columbia Hospital, The Dalles, county of Wasco  
(Postoffice Address)  
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Chenoweth Creek (Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is 0.09 cubic feet per second or 40.2 gallons per minute.

3. The use to which the water is to be applied is Domestic Stock Irrigation 7 acres

4. The well or other source is located 2970 ft. S. and 2046 ft. W. from the NE corner of Section 36 (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well each must be described. Use separate sheet if necessary.)  
being within the NW 1/4 of Sec. 36 Twp. 2 N. R. 12 E.  
W. M., in the county of Wasco

5. The portable pipe line to be 600 feet 1 1/2 inches in length, terminating in the NW 1/4 SE 1/4 (Smallest legal subdivision) of Sec. 36 Twp. 2 N. R. 12 E. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Moore Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

If artesian water is found, the well will be capped in accordance with regulations.

8. The development will consist of 1 (Give number of wells, tunnels, etc.) having a diameter of 5 inches and an estimated depth of 300 feet. It is estimated that feet of the well will require Don't know casing. Depth to water table is estimated 100 (Kind)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 300 feet; width on bottom        feet; depth of water        feet; grade        feet fall per one thousand feet.

(b) At        miles from headgate: width on top (at water line)        feet; width on bottom        feet; depth of water        feet; grade        feet fall per one thousand feet.

(c) Length of pipe, 600 ft.; size at intake, 2" in.; in size at 600 ft. from intake 2 in.; size at place of use 2 in.; difference in elevation between intake and place of use, ground is level. Is grade uniform? yes. Estimated capacity, 0.09 sec. ft.

10. If pumps are to be used, give size and type deep well rotary type

Give horsepower and type of motor or engine to be used 10 H.P. electric motor.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development.

12. Location of area to be irrigated, or place of use Section 36, T. 2 N., R. 12 W.

Township N or S	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
<u>2</u>			<u>NE 1/4</u>	<u>1</u>

(If more space required, attach separate sheets)

Character of soil volcanic loam

Kind of crops raised

STATE OF OREGON,

PERMIT

County of Marion.

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.09 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 15, 1962

Actual construction work shall begin on or before May 10, 1963 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1963

Complete application of the water to the proposed use shall be made on or before October 1, 1964

WITNESS my hand this 10th day of May 1962

STATE ENGINEER
